# TRUCE TALKS ALL SET TO START SUNDAY

## Holiday Program at Swimming Pool

"SWING YOUR PARTNERS"—was the call that gathered a number of persons to the edge of the swimming pool for an old time square dance Wednesday evening. The dance was the climax of the day's many activities at the park in celebration of July Fourth. Carl Wilt's fiddlers played music for the dancing, which was half round and half square.

One of the largest crowds to ever visit the Washington Park swimming pool saw Wednesday what more than a year's experience with swimming has done for this city's youngsters.

Home talent provided about a three-hour program of swimming, wading, water pageants, diving contests and exhibitions for the edification of several hundred sun-bronzed spectators who lined the sides of the pool.

Occasion for the gala day at the pool was the Fourth of July. As it turned out, the pool show for members attracted several holiday

drivers, who parked their cars on the Oakland Avenue side of the pool to watch the festivities.

To insure pool members staying at home on the holiday a full day of entertainment pool manager

Fred Pierson had a gala round of dancing in the evening during which about 100 persons took part.

During the afternoon the kids had their way. They put on displays of their swimming and diving

talents, most of which had been acquired since the swimming pool here was opened last summer.

They competed for a host of prizes donated by downtown merchants in Washington C. H.

Exhibitions Staged

Three exhibitions which drew plaudits from the holiday-minded crowd were the water ballet by 10 girls, who were instructed by Mrs. Robert Green, a "Bicycle Built for Two", in which two costumed young swimmers took part, and the low and high board diving.

Neither young or old were forgotten by the swimming pool committee which planned the events.

Little Bobby Green, 11-months-old, got the prize for being the youngest swimmer and Harold (Dutch) Craig received a basket of fruit for being the oldest splasher on hand for the day.

Wendell Whiteside received a picnic basket for having the largest family at the pool, seven members.

The following youths received prizes listed for winning various events: wading—girls under six, Diane Daycak, beach ball; boys under six—Tom Rozsmann, small lawn mower; girls relay—Lavera Johnson, Julia Persinger, Gretchen Himmelsbach and Kristin Himmelsbach, \$2 each.

Girls six to seven years of age, wading across pool—Betty Ellen Clark, beach towel; boys six and seven years of age, wading across (Please turn to Page Twenty)

## Three Young Fugitives Captured Near Sedalia After Car Thefts Here

Three youthful escapees of a Pennsylvania industrial school who stole two automobiles in Fayette County Tuesday morning now are behind bars in the county jail here.

They were arrested Tuesday evening sound asleep in a haystack near Sedalia after officers staged a hunt for them following a tip from a farmer's wife.

Two others who escaped from the Oakdale State Industrial

School in Pennsylvania Sunday night, are still at large.

A Ford auto they stole early Tuesday morning from the Robert Browning farm is still missing, but the other stolen car has been recovered.

The three boys, Edward Flu-hart, 16; Donald Trautwine, 14 and Willard Tompkins, Jr., 18, were rounded up in a quick converging of officers near Sedalia Tuesday afternoon. The hunt was led by Sheriff Harold Ridwell of Madison County and Sheriff Orland Hays of Fayette County.

The trio had run out of gas while driving a Buick car stolen from the Chester May premises on the Columbus Road 3 miles north-east of Washington C. H., at the same time the Robert Browning car was taken a mile further northward.

The trio had also tried to steal (Please turn to Page Twenty)

## Prince and Princess May Make U. S. Visit

LONDON, July 5—(P)—Princess Elizabeth and Prince Philip will visit the United States—if they are invited—after their tour of Canada in October, responsible sources said today.

Prime Minister Louis St. Laurent, in Ottawa, and Buckingham Palace announced last night that the heiress presumptive of the British throne and her husband would make a coast to coast tour of Canada this fall, visiting principal Canadian centers.

A qualified informant said today of the possible U. S. visit that "if President Truman invites them, of course they'll say 'yes'."

Neither St. Laurent nor the palace announcement made any mention of plans for the couple to cross the U. S.-Canadian border.

## SHE WILL BE WELCOME

WASHINGTON, July 5—(P)—President Truman said Princess Elizabeth and Prince Philip of Britain would be welcome to visit this country.

A reporter asked the president whether he intended to invite them to come here.

Mr. Truman replied he has no knowledge of their plans and that he would have to find out what they are first.

## Cool Weather Spreads East

(By the Associated Press)

Cool, rainy and cloudy weather—a spoiler for many midwest holiday outings yesterday—spread in the eastern states today. Showers hit the eastern Great Lakes region eastward into the New England states. Cooler weather was forecast for the wet belt.

Some showers also fell in parts of South Dakota, Nebraska, western Iowa and along the upper Rio Grande. But skies generally were fair in other parts of the country.

It was cold in the northern Rockies and hot in the southern area. There was some warming in the midwest after yesterday's below normal readings. Hot weather continued over most of the south and far southwest.

## Truce Won't End Defense Plans, President Says

Can't Ignore Danger In Rest of World, Celebration Told

WASHINGTON, July 5—(P)—A grim-faced President Truman said last night it still is too early to tell whether the Communists mean business about calling off the war in Korea.

And even if they do, he warned in a Fourth of July address punctuated by bursting firecrackers, "we cannot ignore the danger of military outbreaks in other parts of the world."

Leading the nation's celebration of the 175th anniversary of the signing of the Declaration of Independence, Mr. Truman joined Chief Justice Fred Vinson and Defense Mobilizer Charles E. Wilson in broadcasting this message to the American people:

We dare not relax. Said the president, standing alone on a wide platform before a festive crowd of about 200,000, with the floodlit Washington Monument rising ghostlike in the distance:

"The greatest threat to world peace, the tremendous armed power of the Soviet Union, will still remain, even if the Korean fighting stops x x x.

"We have the hard task of increasing production and controlling inflation in order to support the strong armed forces we must have for years to come."

Vinson, broadcasting from the supreme court building, declared that "the relaxing of our preparedness program—a little or more than a little—could have dire consequences."

## Vigilance Called for

President Truman's new call for continuing military expansion points up administration concern over waning public interest in national defense if the shooting war in Korea stops.

Mr. Truman warned the nation in his July 4 address to be "vigilant and ready for whatever may come."

"We cannot ignore the danger of military outbreaks in other parts of the world. The greatest threat to world peace, the tremendous armed power of the Soviet Union, will still remain, even if the Korean fighting stops. The threat of Soviet aggression still hangs heavy over many a country—including our own."

Defense department officials had been hammering at the same idea for several months, as the prospect of a cease-fire situation in Korea developed.

In his talk yesterday, the president said the nation is faced with the hard task of increasing production and controlling inflation "to support the strong armed forces we must have for years to come."

The armed forces already are nearing the manpower goal of 3,500,000. Officially, the defense department says the total now is about 3,250,000. Actually, it may be somewhat higher.

Even with monthly draft calls cut back to about a 20,000 level, the expansion of the armed forces through selective service, volunteers and the call-up of reserves is at a rate which would bring attainment of the manpower objective in a matter of months.

## Pressure Applied For Tight Control

Broad and Intensive Campaign Mapped Out by Administration

WASHINGTON, July 5—(P)—The Truman administration today hit at the economic controls law pending in Congress as likely to mean \$1-a-day increase in living costs for every American family.

Eric Johnston, economic stabilization director, made that estimate of it, and said President Truman has agreed that all elements of the administration should engage in a campaign of speeches, statements

on the hazards of inflation. Johnston added to a news conference:

"We don't want an economic Pearl Harbor or a Dunkerque. And we don't want a Munich of appeasement."

Johnston had just come from a conference with President Truman.

While Johnston was meeting with reporters at the stabilization agency, Mr. Truman was holding his usual Thursday news conference.

The president also plugged for stronger economic controls, as he has been doing for weeks, but he used much milder language than Johnston did.

Mr. Truman said he hopes the House, beginning debate today on controls legislation, will come up with a workable bill. He has been sharply critical of the bill the Senate has passed. It would restrict—and possibly prevent—price rollbacks.

## Put Up To People

Johnston, without directly asking housewives to write their congressmen, said he was sure that "if the voters have convictions in this matter, they will communicate with their representatives in Congress."

"This is not a political issue," he insisted, and added: "I am not blaming any member of Congress. In general they vote their convictions."

"If there is any blame to be fixed, it should be fixed on us. We—me and the E.A.—haven't brought home to the people the dangers ahead."

Johnston said an "education" drive is planned aimed at consumers, business, labor and Congress.

He said it would have full White House support.

It will be "disastrous," Johnston declared, unless Congress gives the administration the power to roll back prices.

Mr. Truman said nothing about an "education" campaign at his meeting with reporters, but he told them he would keep putting forward every effort to get a strong controls bill. He said he did not plan any further formal messages to Congress on the subject.

## Mobilization To Go on

Mr. Truman said in a July 4 address last night that even if the fighting in Korea stops, the building of the nation's military might must go on. And he added that a tight rein must be kept on the economy to prevent runaway inflation.

These statements echoed similar ones the president made earlier yesterday in a letter transmitting to Congress a quarterly report on Defense Mobilization Director Charles E. Wilson.

Senators generally agreed that defense preparations should go forward. But some said they believe an end to the Korean war would permit a slowing down of (Please turn to Page Two)

## Conference City Held by Allies; Fighting Eases

Air of Excitement Noted Near Front As Deadline Nears

BY OLEN CLEMENTS

TOKYO, July 5—(P)—Reds and Allies were all set to start preliminary cease-fire talks Sunday in Korea's no-man's-land. Only details guaranteeing safe arrival of the negotiators were lacking.

Gen. Matthew B. Ridgway, United Nations commander, agreed today to a Sunday meeting as suggested by Red commanders. He asked them to guarantee safe conduct of his representatives—three officers and two interpreters.

Previously Ridgway promised safe conduct for Communist emissaries if the Reds announce their route to Kaesong, the deserted, war-scarred meeting place three miles south of the 38th Parallel. Communist commanders have not furnished that information.

## Fighting Tapers Off

Battlefronts were quieting, as though in expectation of an end to the war which will be one year and two weeks old Sunday.

But there still was shooting—from the crack of a sniper's rifle to the roar of the 16-inch guns of the Battleship New Jersey. Under cover of naval guns one UN patrol pushed up the east coast to a point 40 miles north of the 38th Parallel, deepest Allied penetration of Red Korea this year.

Two powerful Allied task forces on the central front began a slow withdrawal from the northern end of the Choswon-Kumhwa-Pyongyang iron triangle, taking UN outposts with them. They had pushed 24 miles north of the 38th Parallel and driven Chinese from the triangle's dominating hills, three miles south of Pyongyang.

One UN patrol probed into Kaesong beyond the western front Wednesday and found it deserted. A second patrol ran into Red (Please turn to Page Twenty)

## Reds Hush Up East Berlin Disaster News

BERLIN, July 5—(P)—A ship carrying at least 120 children exploded in the Spree River behind East Berlin's iron curtain today. Many may have been killed and injured, but Communist "people's police" pushed aside all inquiries about casualties.

Rumors reaching West Berlin said dozens of the children were killed. Residents of the area near the scene of the explosion said at least 60 children were given treatment for cuts and burns.

The ship blew up at 10:30 A. M., at a point not far from the Soviet Memorial Park in Treptow. Communist police kept crowds from getting near the area.

All the Communist police would say was that there had been 120 children aboard the excursion boat when its boiler exploded, and that the children were from an East Berlin "people's school."

Worried mothers massed at the Treptow railroad station, which was as close to the river as the Red police permitted anyone to approach. Many who had children aboard the ship were weeping.

## Husband Is Jailed For Killing Wife

PORTSMOUTH, July 5—(P)—The husband of a 32-year-old mother of three was held in Scioto County jail today to await charges of first or second degree murder.

Sheriff Burl Justice said he had not decided which of the two charges to file against Paul J. Burke, 39, formerly of Columbus.

Mrs. Tennessee Evans Burke, his wife, was shot fatally yesterday in the home of her mother in Franklin Furnace, 15 miles east of Portsmouth.

Justice said Burke made an oral confession in which he said his wife "ran around" in Columbus, visited a "Black and Tan" nightclub, and kept company with a man he described as a "foreigner."

The sheriff said the couple has a divorce action pending in the Franklin County court. Burke is employed by the Dayton Malleable Co. of Ironton.

## American Newsman In Prison as Spy In Czechoslovakia

By DONALD DOANE

FRANKFURT, Germany, July 5—(P)—William N. Oatis today began serving a 10-year prison sentence meted out by Communist Czechoslovakia for "spying out state secrets" while doing his job as Associated Press reporter. The court said "good behavior" might take five years off the sentence.

Oatis, chief of the Associated Press Bureau in Prague, and three Czech employees of the bureau were sentenced yesterday in grim Pankrac Prison after a two-day trial.

Two U. S. Embassy observers, (Please turn to Page Twenty)

## Meanderings

By Wash Fayette

Lieut. Col. John R. Clifton was with the American forces on the 38th Parallel in Korea Monday, if he is following the itinerary he gave his father, C. M. Clifton of the Good Hope, Road, before he left.

Col. Clifton, although only 42 years old, has been in the army for 16 years. He is a graduate of New Holland High School and Ohio State University, where he studied engineering. Both he and his family are well known in Washington C. H. and throughout Fayette County.

As an officer in the army engineer corps, he explained to his father, his literally and figuratively flying trip to the Far East was for the purpose of inspecting construction and maintenance of facilities. He said he had been for general staff actions on these matters for more than two years, but that this was the first time he had had an opportunity to see the work on the ground since his return from the Pacific after the second World War in 1947. On the same trip, it is understood, are several officers in the defense administration and high brass of the military. Details were obscure for security reasons.

Col. Clifton left Washington, D. C., where he is stationed, on June 24 and flew to the Far East via Racoma, Wash., and Anchorage, Alaska, (June 25) to Tokyo, where he landed June 28. His itinerary called for inspections on the 38th Parallel in Korea on July 2, back to Tokyo for July 4. He planned to spend four or five days on Okinawa and start back for U. S. via Guam (July 13), Hawaii (July 15), San Francisco (July 17) and reach Washington, D. C. (July 18).

## Defective Firecracker Blamed For Drowning of Two in Lake

AKRON, July 5—(P)—A defective "helicopter" firecracker went off in a rowboat last night, causing three occupants to panic and capsize the boat. Two of them drowned.

Dead were Paul Bertsch, 45, vice-president and sales manager of the Rohrer Paper Co. here and Sylvia Strange, 13, an outstanding junior horsewoman in this area.

The accident happened on an artificial lake on a 100-acre estate owned by Bertsch's brother, Leonard.

According to the brother, Bertsch, his daughter, Louise, 14 and Miss Strange had rowed out on the lake to ignite helicopter firecrackers. This type of firework zooms into the air and descends slowly on a propeller device.

A "helicopter" failed to rise and went ricocheting about the inside of the boat. The three scrambled about to escape it and capsize the boat.

Leonard Bertsch swam out to the boat. He said he was not worried because all three were good swimmers.

At the scene, he found Louise swimming in a circle in a panic. He then swam to shore and he searched for his brother and the other girl. Sighting a light from his brother's flashlight shining from the depths of the lake, he dove down and found Bertsch and Sylvia with their arms interlocked.

The girl slipped away, but Bertsch pulled his brother to the surface and laid him across the bottom of the overturned boat.

The girl's body was not recovered until early today. Meanwhile, Louise had run

## 25 Here Go to Salvation Army Camp

IT WILL BE 10 DAYS AT CAMP GREENWOOD, Salvation Army camp, for the 25 youngsters shown above. They left Thursday morning (today) from the Court House in a school bus bound for the camp near Delaware. The youngsters, whose ages range from 10 to 14, received the money for the trip to camp from the county commissioners. These youths are underprivileged children in the county. (Record-Herald Photo)

## Hynes Resigns Grange Office

Successor Named  
As State Secretary

The office of the state secretary of the Grange today was moved out of Fayette County into adjoining Pickaway County after Loren D. Hynes, turned over the affairs of the organization to the new secretary, John F. Fowler, of near Ashville.

Hynes, who has served the state Grange as its secretary for about three years, resigned last month, but his resignation was not announced until after he stepped out of office on July 1.

Dowler was named to succeed Hynes by the Grange's executive committee.

As has been the custom, Hynes maintained the state secretary's office in his farm home west of Washington C. H.

Office Trucked Away

Thursday morning, all of the files, cabinets, records, books and supplies were moved to Dowler's home. It took one big truck and a smaller pick-up truck to haul them.

Hynes explained his resignation by saying that "being state secretary of the Grange is a full-time job... I just did not have the time to do it right."

He added that he would devote his time now to his 700-acre farming interests and the Washington Implement Co. on the Circleville Pike. "Both of these are full-time jobs, too," he added with a laugh.

Hynes, however, emphasized that he had lost none of his interest in the Grange and that he expected to take an active part in its affairs, both here in Fayette County and throughout the state.

Successor a Farmer  
Dowler, Hynes said, is a businessman and farmer who has served the Grange in many capacities for 38 years.

He was born on a farm near Groveport, Franklin County. He bought his present 106-acre farm near Ashville nearly 20 years ago. He is a member of the Scioto Valley Grange and first joined the organization at University Grange, Columbus.

The new secretary was an instructor at Ohio State University between 1920 and 1933 in farm management and farm accounts and did research work in farm production costs and livestock.

Madison Twp. FB To  
Send CARE Package

The Madison Township Farm Bureau Council met with Mr. and Mrs. Lewis Parrett on the Prairie Road Tuesday night and voted to send a CARE package to Europe. Forest Fry led the discussion on the subject "Let Freedom Ring." One of the interesting sub-topics which developed was "Can Our Way of Life, Based on Human Rights, Meet the Threat of Communism."

Also discussed were home front problems, the want for a good life and the world's problems which are rural.

Assistant host and hostess were Mr. and Mrs. H. W. Melvin. The next meeting, to be a picnic affair, will be held at the Harrisburg Road Park at 6:30 P. M. August 7.

The chairman of the meeting was Mrs. Dwight King.

## Mainly About People

Mrs. Etta Dabe, of Wilmington, was admitted to Memorial Hospital, Tuesday for observation and treatment.

Roman Wright of Jeffersonville, was admitted to Memorial Hospital Thursday morning for observation and treatment.

Mrs. Robert Caldwell of Hillsboro, is recovering nicely in Memorial Hospital, after undergoing surgery Tuesday morning.

Walter Neal of Jeffersonville, is a patient in Memorial Hospital for observation and treatment. He was admitted Wednesday morning.

Mrs. Ethel Whitte was released from Memorial Hospital and taken to her home 927 Clinton Avenue Tuesday afternoon in the Parrett ambulance.

Mrs. W. A. Mongold was released from Memorial Hospital, Thursday morning and returned to her home on the Leesburg Road in the Parrett ambulance.

Audrey Massie, Patricia Riley and Jeanette Nichols, wards of the Children's Home underwent tonsillectomies in Memorial Hospital Thursday morning.

Mrs. Philip Brannon, 317 Berean Street, was rushed to Doctor's Hospital, Columbus, in the Gerstner ambulance Wednesday evening for observation and treatment.

Jimmy Larrick, son of Mr. and Mrs. Willard Larrick Route 2, Sabina, underwent surgery in Memorial Hospital, Thursday morning. He was admitted Wednesday evening.

The condition of Richard Waters, Sr., is reported as improved in Mercy Hospital, Columbus after undergoing the second operation Saturday evening. He has been a patient there for about two weeks.

Mrs. Ralph Cyphers and infant daughter, Marilyn Rosann, were released from Doctor's Hospital, Columbus and brought to her home 1114 Rawlings Street, Wednesday morning in the Gerstner ambulance.

## Blessed Events

An eight pound six ounce son, was born to Mr. and Mrs. George W. Smith, 1337 Grace Street, in Memorial Hospital, at 11:38 P. M. Tuesday.

Mr. and Mrs. Samuel Lemmings, of Sabina, are the parents of a seven pound, two ounce son, born in Memorial Hospital, at 11 P. M. Wednesday.

A son, weighing five pounds, eleven ounces was born Tuesday at 10 P. M. in Memorial Hospital, to Mr. and Mrs. Billy Blair, 432 Western Avenue.

Mr. and Mrs. Jack Redden, 523 Harrison Street, are the parents of a seven pound, twelve ounce daughter born in Memorial Hospital, at 1:20 A. M. Wednesday.

Mr. and Mrs. Harold Hatmacker, 436 South Fayette Street, are announcing the birth of a seven pound son, Samuel Eugene, in Memorial Hospital, Tuesday at 10:51 P. M.

Mr. and Mrs. Raymond Huff, 732 North North Street, are announcing the arrival of an eight pound thirteen ounce daughter, in Memorial Hospital at 9:10 A. M. Thursday.

Joint Plans Made by  
4-H Clubs for Dance

The Clover Belles and Gay 51's met jointly Tuesday to discuss plans for holding a square dance July 13 at the Bloomingburg High School. The general public has been invited for dancing from 8 to 12 P. M.

There were five members and the club advisor, Mrs. Lee Cleland, from the Clover Belles and eight members and the advisor, Miss Mildred Simerl from the Gay 51's present at the meeting, held at the home of Mrs. Lovey Riley.

## Good Hope Grange To Enter Contest

Plans were made at the last meeting of the Good Hope Grange for a "Little Theater" contest, which will be held August 6 at the Big Plains Fairview School.

The Good Hope Grange will enter a cast in the contest to stage the play "Muley." It was decided to hold a picnic at the Golf Cliff park in Springfield August 12.

The last meeting of the Grange opened with a ritualistic service, attended by 20 members. The home economics chairman announced that cup cakes, which Mrs. Charles Morgan had entered at the Pomona Grange, contest, had won second place in the county.

Master Harry Rains announced details of the "Little Theater" contest.

The literary program consisted of slides on the first annual Soil Conservation Field Day, which will be held August 1.

The next regular meeting will be held in August, with the Ladies Degree team to exemplify the degrees for six candidates.

Refreshments were served by Mr. and Mrs. Charles Garringer, Mr. and Mrs. Orville Weidinger, Mr. and Mrs. Frank Carr and Mr. and Mrs. Harry Rains and Mrs. Rheta Kearney.

## Two from Here Win Second in Greenfield Show

Marcia Fletcher, 14-year-old freshman at Washington C. H. High School, and Kemp Allemang, 15-year-old junior at the high school, emerged with second prize, \$15--in the Greenfield Fourth of July talent contest.

Each Fourth of July the contest is sponsored by the recreation association. This year the dance team from Washington C. H. turned out runner-up.

Some outstanding talent appeared on the program. There were 10 numbers picked during the afternoon show for the elimination to three acts during the evening.

Accompanying the Washington C. H. dancers was June Vincent.

## Kentucky Engineer Inspects City Dump

R. W. Davis, consulting engineer for the city of Lexington, Ky., was in Washington C. H., Thursday, inspecting the "land fill" city dump, which has been pointed to by the state health department as one of the finest examples in the state of this method of disposing of refuse.

Davis was much impressed with the manner in which the dump is handled and the total obliteration of refuse and garbage by the method of trenching and filling with a bulldozer.

## Sewing Basket 4-H Club Discusses Fair

The Sewing Basket 4-H Club discussed ways of decorating its Fair booth at its last meeting Tuesday night at the home of the advisor, Mrs. Leona Dadds.

The next meeting will be held Tuesday at 7 P. M. at the home of Joyce Bandy at 918 Leesburg Avenue. The club advisor is Mrs. Leona Dadds.

Barbara Whitten, president, was in charge of the meeting.

The stormy petrel gets its name from "walking" on calm water, with the help of flapping its wings.

## Harry Ferguson At Elks Convention

Harry Ferguson, exalted ruler of the Washington C. H. Elks Lodge, No. 129, was in Chicago today attending the 87th Grand Lodge convention.

Howard R. Davis, veteran newspaper editor of Williamsport, Pa., was elected Grand Exalted Ruler of the Benevolent and Protective Order of Elks of the USA at the convention.

Davis, who succeeds Joseph B. Kyle of Gary, Ind., is the ninth Pennsylvanian to head the order since its founding in 1888. Active in the Elks for 41 of his 67 years, Davis was chosen to head the order after five years of service on the Board of Grand Trustees.

Davis served as managing editor of Grit, the country's largest weekly newspaper, from 1937 until his retirement in 1949. He began his newspaper career as a copy boy in 1904.

## Controls Pressure

(Continued from Page 1)  
military spending and would ease the upward pressure on prices. Others sharply disputed this, saying any let-up would play into Russia's hands.

In the House, where debate starts today on a long-range price-wage-rent control bill, administration leaders were fearful that peace prospects in Korea might create a surge of sentiment to junk controls entirely.

## Price Rollback Ban

Some said privately that they have abandoned hope of keeping out of the legislation a ban against price rollbacks like that voted by the Senate last week.

The bill before the House calls for a one-year extension of the economic controls program embodied in the 1950 defense production act which would have expired last Saturday midnight had not Congress kept it alive for one more month. It now contains no ban on price rollbacks, but there seems to be abundant support for amendments to put them into the measure.

That the no-rollback forces are in the saddle was demonstrated last week when the House passed the stop-gap bill keeping controls alive during July. A ban against rollbacks went into the temporary measure by a substantial vote.

Some House members don't believe any controls will be necessary if the fighting ends in Korea. They claim the law of supply and demand will take care of inflationary tendencies once the shooting stops.

On the other side of the capitol, Senator Ellender (D-Ga.) said today that if peace negotiations in Korea succeed, he believes that "the pinch will be off as far as the cost of living goes."

However, he told a reporter that authority to channel scarce materials into defense production should be continued. He also said it might be well to extend rent controls.

Mr. Truman, in his letter accompanying Wilson's report, wrote that "it is a matter of great urgency" that Congress pass a new --and strong-- controls bill well before July 31.

Wilson said in his report the defense mobilization program "must and will continue whether or not fighting stops in Korea," adding that what happens in Korea will make no fundamental change in the need for building the strength of the free world.

Reindeer were originally imported to Alaska from Siberia, to provide its people with meat and hides.

## Here's an Event For All of Us To Push

Evidence that Fayette County is becoming awakened to its responsibility in agricultural development and possibilities of its rich resources in this field, is noticeable through interest being taken in the plans for the Fayette County Soil Conservation Field Day on Wednesday, Aug. 1.

This all day event, to be held on the Alpha Farms northeast of Washington C. H. on Route 277, has promise of being one of the biggest days in this county's agricultural history.

Sponsors for the event are the Fayette County Soil Conservation District, the Fayette County Agricultural Extension Department, the Fayette County Production and Marketing Administration and the Fayette County Chapter of Friends of the Land.

An extensive program during the day, it is said will place emphasis on practical agricultural demonstrations, particularly those showing the value of developments in soil productivity, also raising of livestock. In this Fayette County certainly has a big stake.

Not only farmers, but business men and others in this county should show a live interest and cooperation. It is vital to all of us.

Committee meetings held since early in the year have indicated a growing understanding of the possibilities of this event and each week is witnessing mounting interest and activity in the plans and preparations.

Here is something for the people of this county to get their teeth into. There has been a lot of talk about greater agricultural and stock production being needed here. Meetings and demonstrations such as this Field Day ought to awaken new enthusiasm, interest and ambition which can lead to

ward the goals which forward looking farmers, businessmen and others of this county want to reach.

### Justice—Or Mob Rule

Two news stories were printed side by side on page one of the Birmingham, Alabama, Post-Herald, recently.

One contained a statement by Hugh Brown, legislative representative of the Alabama Federation of Labor, against the Right-to-Work bill which the Alabama legislature is considering.

Said Mr. Brown: "Any attempt to regulate labor is bad."

The other story, from Summerville, Georgia, told of the death of Nellie Tucker—killed when striking pickets overturned the car in which she was going to work.

"Any attempt to regulate labor is bad", says Mr. Brown of the A. F. of L.

What would Nellie Tucker say to that? What would the other five women, injured and shocked in the same attack in which Nellie Tucker died, say to it?

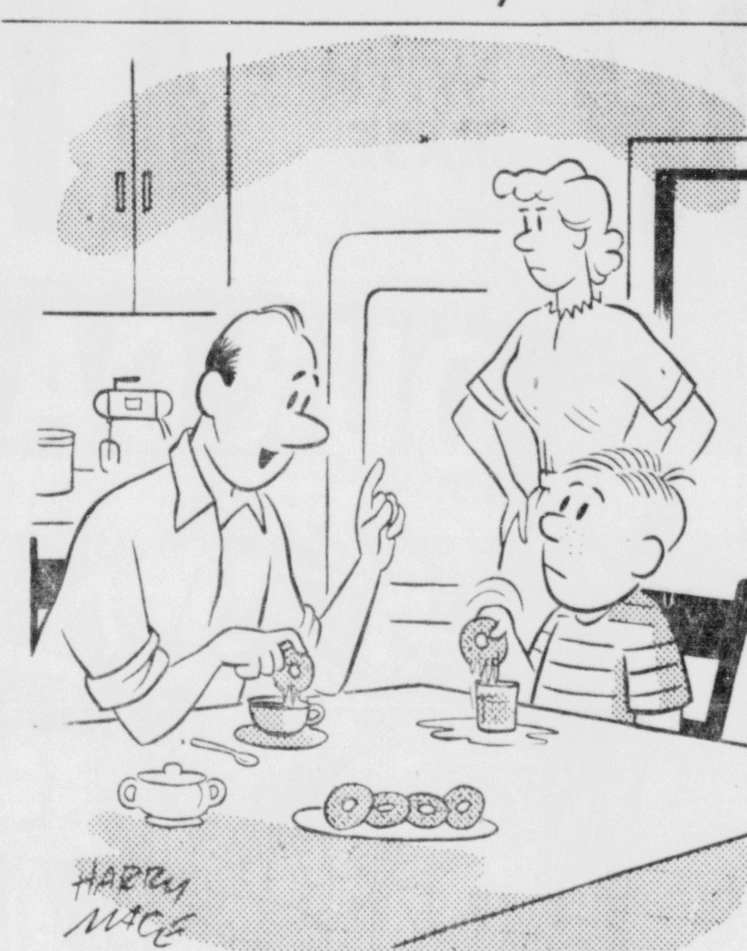

Nellie Tucker, wanting nothing but to exercise her lawful right to work, is dead.

For her, "peaceful picketing" has resulted, with grimy irony, in everlasting peace.

How many more corpses will have to be piled up outside strike-bound plants before the stench of these killings stifles the arrogant mouths which assert that "any attempt to regulate labor is bad"?

How many more Nellie Tuckers have to die before the outraged citizens of every state demand the enactment and the enforcement of legislation protecting their right to work?

## Diet and Health Spinal Cord Tumor Is Hard to Diagnose

By HERMAN N. BUNDESEN

While not common, tumors of the spinal cord do occur. In this situation, the best hope of preventing irreparable damage to the cord, with consequent paralysis, is early diagnosis and removal of the tumor.

This is often difficult, since the very earliest signs may not be marked. As the growth increases in size, however, it makes itself felt in severe pain, which is the chief complaint of the patient with this disorder. It is usually felt over the area of the tumor, but may also travel down into the legs, if the tumor is low in the spine, or to the arms when the growth is located in the area of the neck.

### Gradual Onset

Onset of the pain, which has been described as aching, tingling, shooting, or stinging in character, is most often gradual, though in some cases it may come on suddenly without previous warning.

Coughing, sneezing, or moving the bowels tends to make it worse, and it is nearly always more severe at night, so that patients may attempt to sleep sitting up rather than to endure the pain which comes with lying down.

If the tumor becomes large enough to cause pressure on the nerves, weakness, numbness, burning, and stinging sensations, as well as loss of sensation, may be noticed. When the tumor has

grown exceedingly large, there may be trouble in moving the bowels and urinating.

### Pain on Movement

Often, in persons having this disorder, there may be pain on movement of the neck or raising the legs. If a needle is injected into the spinal canal and fluid removed, the normal pressure of the spinal fluid is reduced, due to a block of the flow being caused by the tumor. Then, too, the amount of protein in the spinal fluid may also be increased.

X-ray may help in making a diagnosis, and an oily-like substance may be injected into the spinal canal which may help in picturing the tumor. In this way, many tumors of the spinal cord may be located early.

The treatment of this condition is as early removal of the tumor as possible. This is usually performed by a brain surgeon.

### QUESTIONS AND ANSWERS

A. M.: What is a lipoma? What can be done for it?

Answer: A lipoma is a fatty tumor. It is not malignant and is best treated by surgical removal.

## Truce in Korea Won't Affect Defense Plans

WASHINGTON, July 5—(AP)—Defense Mobilization Committee Chairman Charles E. Wilson told the tax-writing Senate finance committee today a Korean truce "will have no effect" on the nation's preparedness program.

That program, he declared, "must be based, not upon the Korean fighting, but upon what we know to be the ultimate aims and present tactics of the Soviet Union."

"Until we know that there is a genuine change in the long-term aims of world Communism, we cannot afford to slow the pace of our own defense build-up and our aid to other countries."

Wilson urged the committee to approve the \$10,000,000,000 tax boost which President Truman has asked.

As to the rearmament program, Wilson said "frankly x x x I am not satisfied with our progress in achieving defense production." He added he was taking numerous steps to speed up output.

## Preparedness Is Emphasized

PHILADELPHIA, July 5—(AP)—W. Averell Harriman, in an Independence Day message to Americans, says the nation must not "relax a single day in its efforts to strengthen the free world," even though the end of the Korean war may be in sight.

President Truman's special adviser on foreign affairs asserted last night it is possible to avert another world war "if we provide leadership for the free world and see to it that our Allies and ourselves are prepared to fight at any time, at any place, in defense of liberty."

Harriman, just back from a fresh survey of conditions in Europe, addressed a dinner gathering honoring the 13 original states. The dinner, given by Pennsylvania's Gov. John S. Fine, was a highlight of the four-day jubilee commemorating the 175th anniversary of the signing of the Declaration of Independence, Philadelphia, cradle of liberty, has taken the lead in a nation-wide observance of freedom's birthday.

DECLARED legally dead more than 30 years ago, Thomas Leighty, 84 (right), is greeted by nephew Harry C. Lawrence in Pittsburgh police station after Leighty wandered in with only 14 cents capital. Leighty's estate was long ago divided among relatives. He said he just never got around to writing home. (International)

## Grab Bag

### The Answer, Quick

1. Is Afghanistan a republic or a monarchy?
2. Who succeeded William the Conqueror as king of England?
3. Where is Gatun dam?
4. Who is Harold Ickes?
5. Who wrote a book, Of Mice and Men?

### Watch Your Language

PARTITION—(par-TISH-un)—noun: apertures, separation; division; that which separates; specifically, an interior wall dividing one part of a house, enclosure, etc., from another; a portion, a section, a division. Origin: French from Latin—Partitio.

### Your Future

You may meet a challenge to your wits and ingenuity, which should bring pleasant success. Be discreet during the months ahead and things should go well with you. Bright and ambitious is likely to describe the child who is born on this date.

### How'd You Make Out

1. Monarchy.
2. William II, called Rufus because of his red hair.
3. On the Chagres River. Panama Canal zone.
4. Former United States secretary of the Interior.
5. John Steinbeck.

## Government Surplus Gradually Shrinking

WASHINGTON, July 5—(AP)—The government began sliding back into the red today after chalking up a \$3,509,782,624.25 budget surplus for fiscal 1951, ended Sunday.

Secretary of the Treasury Snyder, who announced the final 1951 figures yesterday, said government spending may exceed income as much as \$3,500,000,000 over the next three months. Expenditures in July, August and September will continue heavy but tax receipts will be seasonally light.

Furthermore, Snyder predicted, fiscal 1952 as a whole will pile up a \$10,000,000,000 deficit "unless appropriate new taxes are enacted as soon as possible." The House has voted a \$7,200,000,000 tax hike. The Senate gives indications of making it less, despite the administration's insistence on a budget-balancing boost of \$10,000,000,000.

The nearly \$3,510,000,000 surplus of fiscal 1951 will go down in the books as the 76th in the nation's history. It was the biggest so far except for the \$8,419,000,000 record set for three years ago. The third largest surplus was \$1,155,000,000, recorded 24 years ago.

Treasury records show 85 years of deficits.

### 40 Women Drown

MADRAS, India, July 5—(AP)—The local press today reported the drowning of 40 farm women when their boat overturned in a canal last weekend in a village of West Godavari district, near the south-east coast of India.

## Three Soldiers on Nameless Hill

NEW YORK —(AP)— Three American soldiers sat atop a nameless knoll in Korea. It was a peaceful twilight. They watched a cloud swim like a great white whale into the setting sun.

Joe One—Well, yesterday was the Fourth of July. I see by Stars and Stripes it's the 175th anniversary of the Declaration of Independence. We ought to do something special to celebrate. I think I'll spit on the sergeant.

Joe Two -- I guess I'll wash my socks.

Joe Three -- I'm going to write a letter home. Gee, I wish I was home.

Joe One --Home? Listen to the replacement. All he can talk about is home.

Joe Three (defensively) -- Well, how long you been over here anyway?

Joe One -- They won't tell me.

Joe Two -- They don't dare tell me.

Joe Three -- Anyway, I wish I was home tomorrow. Maribel and I would go on a picnic.

Joe One -- What's a Maribel? A flower, or a new kind of auto?

Joe Two -- Sounds more like a horse to me. But I never took

one on a picnic.

Joe Three -- Cut the kidding. You know she's my girl. I showed you her picture. Her folks and my folks usually go out to the fair grounds every Fourth of July for a picnic.

Joe One -- What happens?

Joe Two (Slapping at a mosquito) -- Bet there's a lot of ants.

Joe Three -- Oh, the whole town turns out. The mayor or our congressman makes a speech. The veterans have a parade, and there's a baseball game. Then we all have a big dinner, and sit around and watch the fireworks.

Joe One -- Fireworks!!

Joe Two -- Didn't they make you nervous?

Joe Three -- Aw, cut out the corn. Hey, I betcha I know something you don't: it was the Chinese that invented fireworks.

Joe One -- I wish they'd kept them at home.

Joe Three (dreamily) -- And afterward Maribel and I go and dance, and then we take a long ride before going home. We got a favorite parking place of our own. It's on a hill, over a creek.

Joe One -- Sounds like a hard day's work to me.

Joe Two -- Yeah, ants, speeches, noisy juke boxes, and some gal jawing at you to get married. It's a lot more quiet and peace-

ful here.

Joe One -- Safer, too. Look how many people get killed in highway accidents nowadays. Bet you there was three times as many people knocked off joy riding back home in the last year as was killed here.

Joe Three -- Anyway, I still wish I was home. You guys ain't kidding me -- at all.

Joe One (Yawning) -- Well, it's time to sack out.

Joe Two (Yawning) -- Hear we may have steak tomorrow. A runner from regiment told me that.

Joe One -- Say, kid, let's have another look at that Maribel.

Joe Two -- Hmmm, nice girl--as girls go.

Joe Three -- You guys go on and hit the sack. I'll stay up and watch the fireworks.

Joe One -- Well, happy Fourth of July, kid.

Joe Two -- And don't forget to wake us up if you hear a bugle.

The two soldiers wrap themselves in a blanket and soon are asleep. Far over the hills a flare drops slowly in the darkness. The third soldier carefully puts away the picture of Maribel.

Joe One -- ZZZZZZZ!

Joe Two -- ZZZ--ZZZ--ZZZ!

Joe Three (Softly) -- Gee, I wish I was home.

## Sen. McCarthy's 60,000 Words

Senator Joe McCarthy put together a study of General George Marshall from the record made by his friends. The immediate newspaper reports were based not upon the senator's 60,000-word speech but on a supposition of what he might have said. In current journalism, this is called "high-lighting" and is generally inaccurate and distorted.

So I waited until I could get a full copy of the speech: read the whole of the 60,000 words and realized that the senator had done a decent job of research and analysis. To make the matter clear, this is a partial bibliography that Senator McCarthy used in connection with this speech:

Winston Churchill, "The Hinge of Fate"; Admiral William Leahy, "I Was There"; Cordell Hull, "Memoirs of Cordell Hull, Vol. II"; Henry L. Stimson, "On Active Service"; James F. Byrnes, "Speaking Frankly"; Sumner Welles, "Seven Decisions That Shaped History"; Edward Stettinius, Jr., "Roosevelt and the Russians"; Robert Sherwood, "Roosevelt and Hopkins"; Hanson Baldwin, "Great Mistakes of the War"; General H. H. Arnold, "Global Mission"; General Claire Chennault, "Way of a Fighter";

General Lucius Clay, "Decision in Germany"; General Mark Clark "Calculated Risk"; General John R. Deane, "Strange Alliance"; General Amar Bradley, "The War America Fought"; "Life Magazine," April 30, 1951; Edgar Ansel Mower, "The Nightmare of American Foreign Policy"; Jonathan Daniels, "The Men of Independence"; Freda Utley, "The China Story"; Henry Wallace, "Soviet Asia Mission"; Robert Payne, Mao Tse-Tung--ruler of Red China."

This bibliography is important because it shows not a single enemy -- personal or political -- of General Marshall, unless it be Marshall did not see eye-to-eye with Winston Churchill with whom during phases of the war.

I do not propose here to indicate my own judgment of this speech: I shall do that at another time. The point of this piece is to suggest that the speech ought to be read: ought to be taken seriously; and should be discussed.

It is apparent throughout that Senator McCarthy, while not approving of General Marshall, devotes most of his long speech not to his own views but to quotations from others. He says:

"...There are various ways in which to arrive at an estimate of a wartime figure. It is helpful if he will write his own recollections, but that General Marshall has declined to do, giving, as I understand it, the explanation that to do so would injure certain reputations. If all public figures accepted that thesis, I may remark in passing, the public would be even less enlightened than it is at present. In pursuit of an estimate, one may also gain information from official records. The records of the joint chiefs of staff and the Anglo-American combined chiefs of staff are not open to my perusal. In the end the inquirer will also find in the archives of the enemy, when they become available, evidence regarding the behavior of his own leaders. If the archives of the

Kremlin are ever open to us, we shall have even deeper insight than we have today concerning the conduct of our current leaders. But as matters now stand, I have been forced to rely upon the memoirs and upon some other contemporary sources. I repeat that all these are friendly sources, and cannot be charged with attempts to injure General Marshall."

From that point on, McCarthy devotes himself to showing how General Marshall placed himself in posture to run the American participation in World War II, largely by quarreling with Winston Churchill over where the second front was to be and how it was to be managed. It was Churchill, he says, who was Churchill, with Marshall on Stalin's side. Out of this particular decision, which Marshall finally won, Stalin gained mastery of eastern Europe.

McCarthy then goes on to discuss Yalta, raising the issue for the 1952 campaign:

"It was Marshall who stood at Roosevelt's elbow at Yalta, urging the grim necessity of bribing Stalin to get into the war. It was Marshall who submitted intelligence reports to support his argument, suppressing more truthful estimates, according to Welles, in Hanson Baldwin's book on page 81, and keeping from the stricken Roosevelt knowledge that the Japanese were even then feeling for peace in acknowledgment of defeat."

It is interesting that some writers insist upon calling all this hindsight. They forget that men like Herbert Hoover, Hugh Gibson, Arthur Bliss Lane, William C. Bullitt, Joseph P. Kennedy and many others, including, if I may be so immodest, myself, had lots to say on this subject from 1933 until today. As one lists such names, it would be most unjust not to include Charles Lindbergh, who was pilloried and destroyed as a public figure because he recognized early the truth of Russian imperialism. (Copyright, 1951, King Features Syndicate, Inc.)

People Are Aroused To Bad Conditions

By HORACE B. WARD  
LOUISVILLE, Ky., July 5—(AP)—

It was just like the movies. The Rev. A. W. Walker, pastor of Carlisle Avenue Baptist Church, and three of his congregation stood unnoticed among the throngs that crowded an elaborate night club, watching the poker and dice games.

Precisely at 11:30 P. M., the minister unobtrusively moved near a window and turned a flashlight on and off twice. Three detectives from the commonwealth attorney's office dashed upstairs.

They made a number of arrests and confiscated dice, chips and tables.

It was one of several visits to night clubs and known gambling establishments by groups of Louisville ministers and laymen. All the places were outside the city limits.

The Louisville Council of Churches had heard from newspapermen and police court attaches of a recent influx of out-of-town gamblers.

Council leaders went to county officials who said they did not have enough police to meet this new threat against anti-gambling laws. So the churchmen volunteered to help collect evidence.

People Aroused, At Least

It is too soon to tell what effect their efforts will have. But a council spokesman says, "At least it has aroused many Louisville churchmen—both clergy and laymen—to do something about crime besides viewing with alarm."

Just the other day, the council of churches sponsored a panel discussion on gambling and other forms of crime.

The council's executive committee also met and urged that wire service be cut off from horse racing handbooks. This was done the next day, although not solely as a result of the ministers' action.

The church leaders recommended injunctions against owners and operators of gambling places. Several injunctions have been served.

This active interest of Louisville ministers in the crime problems of the city and county arises from a program started by Police Judge David Cates when he took office the first of this year.

He called the council of churches, inviting ministers to set with him on the bench four days a week. The council arranged a rotation of visits among the pastors.

When ministers began appearing on the bench beside Judge Cates, spectators began taking off their hats. All hands were a little more careful of their language.

Pastors Turn Sleuths

The visiting pastors began to notice things. A minister, wandering

The statement said: "We believe our democracy has the vitality to withstand any strains that reflect the tensions of an uneasy world. We are convinced that an open discussion of such differences brings strength and unity of purpose."

But, as if anticipating the such questions as—why can't the senators learn to work better?

A ROMANTIC MUSICAL COMEDY, "Excuse My Dust," is billed for Sunday and Monday at the Fayette Theater. A technicolor film, the story turns back time to the days of the early automobile. Red Skelton tops the case in his role of the inventor of a gasmobile. In the above scene from the picture, MacDonald Carey serenades pretty Monica Lewis. Sally Forrest plays the feminine lead opposite Skelton to provide the hilarity.

## Red Farm System Denounced by Pope

VATICAN CITY, July 5—(AP)—Pope Pius XII last night denounced the farm collectivization of Communist countries as a system which degrades the fields and makes them simply a "reservoir of manpower for industrial production."

The pontiff spoke to 175 delegates from 18 nations gathered here for the first international Catholic Congress on problems of rural life.

"Marxism," the Pope said, "has fallen into the superstition of technicism and industrialization to the limit. The 'collectivization' of agriculture around the hallways, questioned several persons who seemed to have no legitimate errands. Some said they were solicitors or 'runners' for bondsmen, who admitted they were there illegally and cleared out."

One clergyman, putting idle time to use during a court recess, stumbled into a horse racing handbook joint near the city hall. Prosecutors began to counsel defendants to go to church.

The clerical visitors have been encouraged to make suggestions to the court. Judge Cates has accepted several of them.

Noting how large a part drunkenness plays in the cases in police court, the ministers recommended an alcohol clinic. A citizens committee has been formed.

The pastors suggested the police court should have a social worker to help straighten out the marital, economic, health and housing problems of the men and women who come into the court. Judge Cates has asked for such a worker.

In four months, 75 ministers have taken their tours of duty in court.

One Louisville clergyman says, "It has been an eye-opener for me. I have seen more sin here in one morning than in all my 20 years' service as a minister."

Officials and ministers alike are "sold" on the experiment.

ricultural labor in the manner of a factory, the degradation of the fields, reduced to being no more than a reservoir of manpower for industrial production -- that is where Marxism leads."

In Cleopatra's day the women stained their nails with henna.

The game of backgammon was played in the Tenth Century.

## Sauer Speaker At Session of Rotary Club

Leesburg Humorist Tells of Experiences Before the Public

Mack Sauer, the inimitable humorist from Leesburg, was the featured speaker before the Rotary Club at its Tuesday luncheon at the Country Club, and as usual he kept his hearers in a hilarious mood.

Sauer, who was introduced by Edmond Woodmansee of the July program committee, told the Rotarians and guests that "I haven't a thing to tell you" and then proceeded to improvise one of the best talks he ever gave here.

In his clever way he worked the names of a number of Rotarians into his anecdotes and comments and poked a lot of good natured fun at several others. He told how he first entered the arena as a public speaker because he "knew I was as good a talker as some others who seemed to be getting big money for doing a pretty ordinary job."

He recounted some of the amusing incidents that had happened to him in the course of his trips to keep speaking engagements and never failed to tell some of the things that were jokes on him.

Mack has spoken in 33 states, in Canada and in Cuba. Friends may

hear of him next taking a trip to Europe.

Edmond Woodmansee was called upon by President Ed Moser to respond and declared that the speaker always seemed to fit into a program so well, no matter how many times he had been before the club, that he would be welcome again whenever he could return.

During the club business session birthday greetings were sung for Dr. E. H. McDonald. Under the new rule set up by President Moser and the board of directors, McDonald was called upon to put a coin into the Rotary contribution fund for helping children, for every year of his age. The doctor willingly responded but refused to tell how many coins it took.

## Chairman Named For Ohio Turnpike

COLUMBUS, July 5—(AP)—James W. Shocknessy of Columbus today was sworn in as chairman of the Ohio Turnpike Commission for an eight year term.

Chief Justice Carl V. Weyandt of the Ohio supreme court swore the Columbus attorney into office.

About 50 persons jammed the tiny hearing room of the State Board of Tax Appeals on the 10th floor of the State Office Building, Gov. Frank J. Lausche, due to sit in on the Turnpike Commission meeting that is scheduled to follow, did not arrive in time for the ceremony that began Shocknessy's term as chairman.

## \$1,000,000 Is Added To Goodyear Co. Tax

COLUMBUS, July 5—(AP)—The state board of tax appeals today ruled Goodyear Tire & Rubber Co. of Akron must pay more than \$1,000,000 additional state taxes for 1946.

The company had appealed a decision of the state tax commissioner involving taxes on manufacturing machinery and equip-

## Personal To Women With Naggng Backache

Nagging backache, loss of pep and energy, headaches and dizziness may be due to slow-down of kidney function. Doctors say good kidney function is very important to good health. When some everyday condition, such as stress and strain, causes this important function to slow down, many folks suffer nagging backache—feet miserable. Minor bladder irritations due to color wrong diet may cause getting up nights or frequent passages. Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a mild diuretic. Used successfully by millions for over 50 years. It's amazing how many times Doan's give happy relief from these discomforts—help the 13 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

ment at its Akron and St. Marys, O., plants, and for the Goodyear Aircraft Corp. in Akron.

The dispute involves depreciation rates on the machinery and equipment. Goodyear sought a 10 percent annual depreciation rate. The state tax commissioner set a 7 1/2 percent rate. The board upheld the commissioner.

Board Chairman Edward J. Kirwin said Goodyear's tax rate figured at \$30 per \$1,000 property valuation would be boosted more than one million dollars for 1946. Decisions on taxes for subsequent years still are pending.

## Sweeper's Efficiency Just too Much To Take

SHAFER, Calif.—(AP)—The Chamber of Commerce has announced a solution to the problem of the street sweeper that was too efficient. Seems the sweeper -- one of those tank-size motorized jobs with a big rotary broom -- had been scooping up street signs as well as rubbish. The city had put the markers too close to the curb.

The chamber's solution: luminous signs placed high on posts well clear of the sweeper's path.

## Miss Bernice O'Briant Is Guest Speaker at WSCS Monthly Meeting

The Woman's Society of Christian Service of Grace M. E. Church met in Fellowship Hall Tuesday afternoon for their July meeting.

The meeting opened with the singing of "America" and silent prayer, followed with the praying of The Lord's Prayer by the group.

Mrs. C. L. Lewellen, president, conducted the business meeting.

The secretary and treasurer's reports were read and approved.

Mrs. Lewellen announced the evening speaker for the School of Missions to be held at the Sabina Camp Grounds during the week of July 8th and announced that a number from Grace Church were planning to attend the study classes each morning.

The president also announced that August Church Day will be held on August 1st at 2 P. M. in Fellowship Hall.

Mrs. D. H. Rowe, fellowship chairman, introduced the July visitors from a neighboring church. They were members from the Staunton WSCS and were as follows: Mrs. Robert Haines, Mrs. Foster Wike and Miss Blanche Roberts. Mrs. Frank Snyder of Miami, Florida was also introduced as a guest.

Mrs. Ed Fite was in charge of the program and Mrs. Richard Steen led in the devotions using as her theme "Jesus' Teachings" and closed with prayer. Miss Marian Christopher was presented in a piano solo and played "Dreams"—Bizet. Mrs. C. L. Lewellen introduced the speaker Miss Bernice O'Briant of Hampton Roads, Virginia, where she is an instructor

SILK PONGEE—Designed in women's sizes, this New York spring-and-summer suit of natural silk pongee is neatly printed in navy. The jacket is buttoned with ease, and piped in navy on the sleeve cuffs and pockets.

at the Hampton Institute. Miss O'Briant ably handled her subject "The Challenge of Personal Adjustment, To Modern Times". She compared the mode of travel to that of years ago, and told her listeners that "men of all nations can meet in a short time to discuss problems that confront us and in that way become better acquainted. Air travel has made nations closer and referred to the great religious pageant 'Faith of Our Fathers' which is being given in Washington D. C., which depicts the life of George Washington."

"It tends to create in us a greater faith in God, and our country. She also said 'the Bible has been given us with great sacrifice and we as individuals are bewildered and disturbed. To obtain the security that we need we must read, study the Bible and pray.' In closing her most interesting and informative talk Miss O'Briant referred to eight passages in the Bible and told where they could be found: first—Man Has a Soul and God is his spirit; second—The Ten Commandments; third—The Sermon on the Mount; fourth—seeking and saving that which is lost; fifth—The assurance to man and the love of God in Christ Jesus; sixth—The virtue of love; seventh—Faith, and eighth—The Lord's Prayer. She also pointed out that in these passages security in these modern times can be found. Mrs. Fite read a beautiful poem entitled "Now" and the program closed with the song, "O Beautiful For Spacious Skies".

Members of WSCS Circle 5 were hostesses and during a social hour following served dainty refreshments to fifty members and guests of the society.

## Mrs. Louis Evans Is Hostess to Club Members

Members of the Bloomingburg Kensington Club were entertained Tuesday afternoon at the beautiful country home of Mrs. Louis Evans, which was tastefully decorated with summer flowers for the occasion.

The meeting opened with the club hymn "What A Friend We Have in Jesus" and the president, Mrs. Charles Parrett led in the devotions using as her subject "Happiness In Giving" which was interpreted with several passages of Scripture and closed with the Lord's Prayer, prayed in unison. The usual reports were read and nineteen members responded to roll call.

It was decided to take up a worthy new project in sewing for the Red Cross.

The program was in charge of the hostess, Mrs. Evans and opened with duo reading by Mrs. Charles Parrett and Mrs. Don Thornton, entitled "The Fourth of July Declaration."

This was followed with a musical reading "What's The Use of That" by Beverly Evans and Ronald Huff accompanied by Miss Hazel Engle. A recitation "So Was I" by Marilyn Rhoads, two vocal numbers, "In The Garden" and "The Old Rugged Cross" by Mrs. Edgar McIntosh accompanied by Miss Engle.

Another recitation "A Pattern For Growing" by Dianna Pollock, and a reading "The Fourth of July" by Miss Ilo Larrimer.

Two piano duets, "Stars and Stripes Forever" and "The Cavalry March" by Mrs. Homer Wilson and Mrs. Dwight King, two poems "A Toast To The Flag" and

"Old Glory" by Mrs. Lucille Creath and a piano solo, by Sandra Sue Evans.

Linda Brown and Hazel Engle played two clarinet duets, "O What A Beautiful Morning" and "Be Still My Soul" and the program closed with the club benediction.

During the social hour the hostess served a tempting refreshment course, carried out in a pink and white color scheme, with ice cream molds in rosebuds.

Assisting hostesses were Mrs. Abe Andrews and Mrs. Charles Porter. Guests included Mrs. Homer Wilson, Mrs. Dwight King, of Madison Mills, Judy and Philip Dowler of London, Dianna Pollock of Mt. Sterling, Linda Brown of this city, Miss Hazel Engle, Marilyn Rhoads, Ronald Huff and Beverly and Sandra Sue Evans.

## Past Councillor's Club Holds Dinner Meeting

Mrs. Ruby Myers and Mrs. Ruthford Groover were hostesses Tuesday evening for a picnic on the lawn at their home preceding the regular meeting of the Past Councillor's Club D. of A. with a large attendance of members and Mr. and Mrs. Hugh Smith who were included as guests.

Garden flowers decorated the serving table and small tables seated the group for the pleasant supper hour. Later the out-door meeting was presided over by Mrs. Elza Sanderson, in the absence of the president. The devotions were led by Mrs. Ted Pierson who read Scripture from St. Luke. Several members were reported

## Relax! It's Just Magazinitis

By CYNTHIA LOWRY

One of two things has to happen fast. I must retire permanently to a hospital. Or I've got to give up reading magazines.

It's these medical articles, written by specialists for what is laughingly called "the layman." No weekly or monthly volume is without one, and each one explains in simple terms and clear detail, symptoms, diagnoses and cure.

In the past year I've suffered, sharply and acutely, sudden attacks of cancer, tuberculosis, multiple sclerosis, brain tumor, a number of heart ailments, psoriasis, a vast variety of psychiatric difficulties, glaucoma, arthritis, neuritis and—finally the bends.

All this is because I've read articles about what wonderful things they are doing to prevent and cure each of same. Wonder drugs, fancy operations and other cures are inspiring to read about, but before I get to that part of the story, I've achieved the most wonderful array of symptoms.

In a recent article on a new-fangled brain operation, they described the symptoms of a patient who, it turned out, had one of those deep, concealed brain tumors. Before I'd finished the first page, I learned he had experienced a numbness of the right hand. Me, I was numb right up to my shoulder blades on both arms by that time.

For a couple of weeks recently, any discomfort of the torso seemed to shoot right into sharp pains around my heart. I'd been reading a piece about arterio-sclerosis and I knew the warning signals. When I reasoned that this was simply the result of an over-enthusiastic luncheon, the whole thing was spoiled by a dim recollection of an article I'd read about bursts.

Everyone knows by this time that a stomach pain may be the first indication of appendicitis. As an omnivorous reader of these discussions in print, I know that appendicitis is only one thing to worry about. A pain in the stomach can mean almost anything, including a subconscious memory of an unfortunate event that occurred once in kindergarten.

There's a good chance that I am a hypochondriac, but a simple, uncomplicated headache achieved in a New York night club recently was translated the next morning into the first signs of poliomyelitis.

It would be absolutely impossible to walk around bearing as many diseases as my normal complement is today. But I've noticed that my most violent symptoms are concerned with the disease about which I've been reading most recently.

For instance, a smoker's cough

ill, and the usual reports were read. The meeting closed with the benediction.

The August meeting will be held at the home of Mr. and Mrs. Herman Sword.

was a TB signal to me for almost a whole week, and I was about to go into a hospital for observation. Then I read a piece about some drugs they've discovered for arthritis—and I've since been troubled by pains in the joints.

There's only one thing that makes me cheerful about this situation; each succeeding article, with its new disease, makes my former symptoms more or less disappear. A month after I've read a piece on dementia praecox, for example, many of the details have become dim in my mind. But by that time I've passed through a difficult time with scurvy, trichinosis and rheumatic fever.

None of these diseases are laughing matters, as everybody knows. And I suppose the high publicity many of them have received, public awareness that they exist, does a lot as a preventive.

All I wish is that I didn't have such a vivid imagination.

Swifts, flying in India, have been timed at 200 miles an hour.

Fish do not drink water; they get enough moisture in their food.

MANY-PURPOSE WOMAN'S DRESS—In navy silk shantung, comes from the spring and summer collection of a New York designer. Proportioned for both regular and half-size figures, the dress has all-in-one sleeves, a collarless neckline with small revers, and pegtop-like folds at the hips. (N. Y. Dress Institute Photo)

## Cabbage Reunion Held July 4

For the first time, the family of Mr. Frank S. Cabbage of this city, including grandchildren and great-grandchildren gathered July 4th at the fairgrounds for a surprise birthday reunion in honor of his 88th birthday.

A bounteous meal was served picnic style at noon and the afternoon was spent in visiting, playing of games and snapshots were taken of the generations represented. It was decided that the reunion will be an annual event.

Those present were Mr. and Mrs. Paul J. Cabbage and daughter Barbara Lynn; Mr. and Mrs. Paul Leigh and children Joe and Bonnie; Mr. and Mrs. Edward Smith and children Jacque, Thelma and Robert; Mr. and Mrs. Hugh Crouse, children Richard, Dennis, Buddy, Ninetta; Mr. and Mrs. Franklin Cabbage and son Dwight; Mr. and Mrs. James Cabbage; Mr. Ray Smith; Mr. and Mrs. Given Cabbage and children Muriel, Michael, Marilyn, Donald and Helen; Mr. and Mrs. Herman Tippie; Mrs. Lillie Cabbage; all of Dayton, Mr. and Mrs. Gene Cabbage of Greenfield; Mr. and Mrs. Raymond Cabbage and Mr. and Mrs. Norman D. Trout, daughter Karol Kay, of this city.

With a Buckeye in Congress

Government Urges Austerity  
But It's Only for the People

By CLARENCE J. BROWN

On Saturday, following an all night session of the Senate, and less than ten hours before the defense production act was scheduled to expire, the Congress adopted a joint resolution to extend for 31 days the present price control law with a prohibition against further price rollbacks, new price orders and regulations being made effective during the month of July. During the 31-day period the House will pass on continuing the defense production act, the 57 amendments recommended thereby by the committee on banking and currency, and other amendments which may be offered by individual members. The continuing resolution will remain the status quo as far as price control and OPS activities are concerned, and suspend price rollbacks and planned CMP orders until Congress has an opportunity to debate and vote on the many issues involved in the whole price controls controversy.

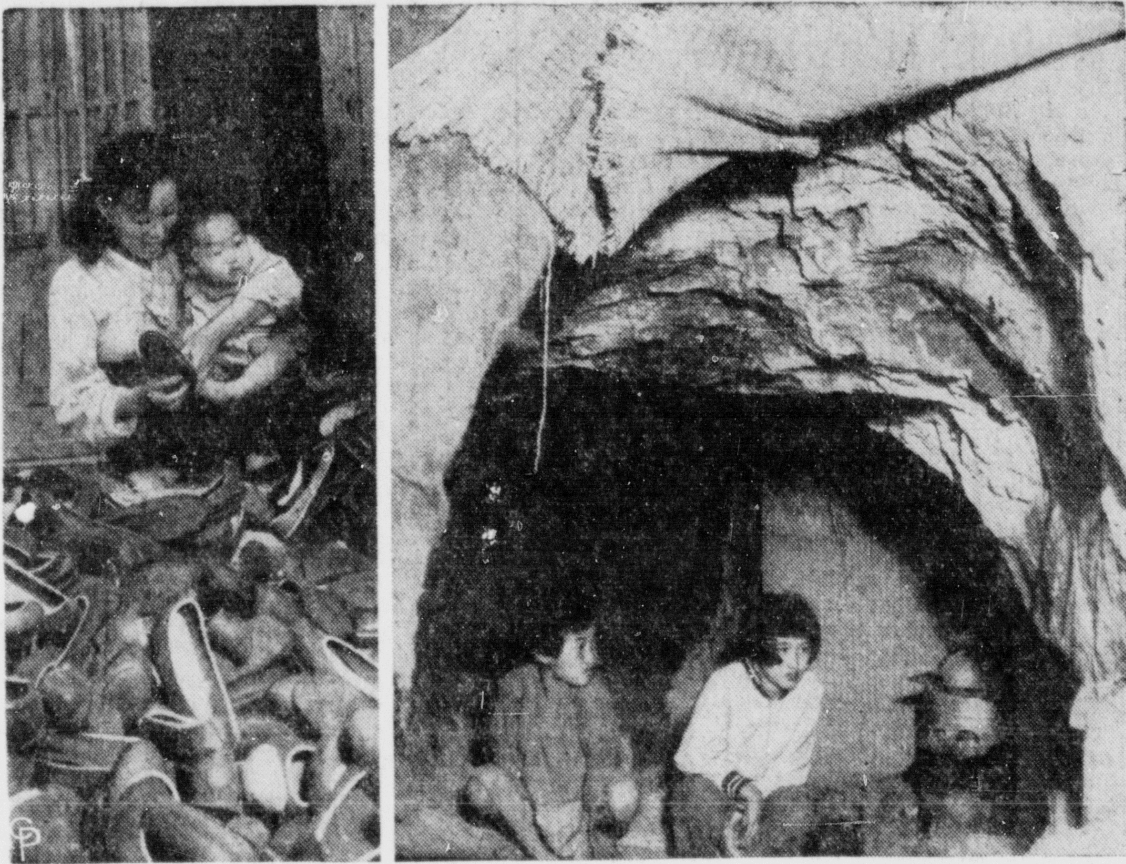

For the first time in modern legislative history the federal government started a new fiscal year (July 1) without a single major departmental appropriation bill having been enacted into law by the Congress. Some suspect the administration may have planned it that way, for under the continuing resolution -- which it was necessary for Congress to adopt in the closing hours of the old fiscal year so the government could function in the new fiscal year -- departments and agencies of the executive branch will be authorized to spend at the same rate as during the past year, or at a higher rate than Congress will approve for many of the purely civilian activities of the government.

As predicted in this column two or three weeks ago, a truce or peace in Korea is in the making. Unless present plans collapse, the cease-fire order can be expected within the two or three weeks. However, two or three hundred thousand American fighting men will be held in the Japanese-Korea area for a long time to come.

When Gen. Douglas MacArthur last March publicly suggested that a battlefield truce be arranged to end the fighting in Korea, he was severely criticized and finally discharged by President Truman. Now the same Truman administration has authorized the new Far Eastern commander, Gen. Ridgway, to explore the possibilities of making the same sort of a battlefield truce. Strangely, the passage of time has a way of proving Gen. MacArthur to be right.

There is grave danger the Iranian oil situation may explode and bring war in that section of the world. The United States, which has been sticking its nose into the squabble over Iranian oil in behalf of the British, is now endeavoring to bring about a peaceful settlement. The withdrawal of British oil technicians from Iran, reportedly approved by our State Department, leaves the Iranian government with but one available source from which to obtain technicians needed to operate its oil wells, pipe lines and refineries -- Russia. And usually the Russians move in, they seldom move out.

Two weeks ago the House approved and sent to the Senate a bill increasing federal taxes by another \$7.2 billion, to bring total tax increases voted in the past

NEARLY 350,000 CIVILIAN REFUGEES from the South Korean battle zones are living in caves, shacks and even holes in the ground in Pusan. Last haven for the vast hordes of homeless fugitives, this southern port city is ill prepared to shelter the endless stream of war-tossed humans. At left, a mother goes through a pile of shoes for a pair that will fit her baby. At right, two little girls squat in their cave home. (International)

year up to more than \$17 billion. Last week Secretary of the Treasury Snyder requested the Senate finance committee to increase the new House-approved tax bill by another \$3 billion. On the other hand Sen. Byrd, of Virginia, chairman of the joint committee studying expenditures in the executive branch of the government, insists taxes can be reduced by three billion dollars, rather than increased by that amount, if the government will practice economy.

President Truman has been urging his fellow-Americans to live austere during the present emergency, and buy only that which they need and cannot do without. However, the government does not practice that which it preaches in the purchase of civilian type goods for its use of the million and a half men it has in uniform: 4,639,999 web belts -- three per man -- altho only one is issued to each man a year; 11,753,000 pairs of combat boots to meet an estimated need of 4,800,000 pairs. In nine months the quarter-master general purchased 1,917,000 pounds of black pepper; in January of this year 5,000,000 pounds of oleomargarine were purchased at 25 1/2 cents a pound, while during the same month the Department of Agriculture sold 5,500,000 pounds of surplus butter to Italy at 15 cents a pound.

President Truman is expected to soon announce and sponsor a plan to give free hospitalization, at gov-

ernment expense, to all those on Social Security, and for legislation therefor some time next year, which happens to be election year. This proposed step toward socialized medicine will bring on another battle between the healing

FIRST TASTE OF AMERICAN "C" RATIONS is enjoyed by a wounded Chinese Communist prisoner of war in Korea. Although his wounds were treated by Army medics, the captured Red eats from his stretcher in a face-down position. (U. S. Defense Dept. Photo from International)

Blood Unit To  
Be Here July 9

Pins To Be Given  
Out by Red Cross

While there is peace talk about the end of the Korean war, leaders here emphasize that there is a vital need for donors to give blood next Monday, when the Red Cross bloodmobile will pay this city its next visit.

They urge residents of the city and county to call the Red Cross headquarters on North Hinde Street to make appointments to give a pint of blood on that day.

As an incentive to donors, the Red Cross plans to award each donor a small pin symbolic of blood giving. The pins have just been put into use by the nationally known service organization.

Those who are eligible for the

by over 500% and adding the new taxes now pending, the increase in the tax burden may soon hit the 600% mark. In the first four months of 1951 the number of civilians on the federal payroll jumped from 2,184,681 to 2,409,121 -- an increase of 224,440 -- or at the rate of 1870 new employees per day for every day in the month.

Gallon Club (for giving eight pints of blood) will receive pins which have been especially designed for this group.

Tom Mark, chairman of the Red Cross blood program in Fayette County, said leaders of the Red Cross in Columbus say that there is an increase in fats in blood which has been donated.

Mark said that no fats should be eaten six hours before blood is donated. This means no dairy foods, gravy, soups, salad dressings or candy within six hours before the time to donate.

A moderate meal can be eaten a few hours before, however, which would consist of fruits, vegetables, bread, coffee (sugar only), lean meat and poached egg.

Appointments will be made from 9:45 A. M. until 3:45 P. M. Monday. Blood will be donated on the second floor of the American Legion Hall on North Fayette Street. Physicians from Washington C. H. will be on hand at all times.

Russian Jeep Used  
By Yanks in Korea

WITH THE FIRST MARINE DIVISION IN KOREA -- (P) -- "Marine Corps Jeep No. 000012" was made in Russia. Three Marines found the jeep in a rice paddy and decided to fix it up.

Under the dilapidated hood they found a motor almost identical to that of a Model A Ford -- a cinch

to fix for anybody who knew anything about cars. A foot wider than GI jeeps, the Red model is a little difficult to maneuver on narrow Korean roads.

A THRILL PICTURE THAT FEATURES a battle between two jungle monsters has been booked for the Palace Theater as the first half of the week-end's double bill. It is entitled, "Forbidden Jungle," and shows a battle between a ferocious gorilla and a full-grown man-eating tiger. The other picture stars Gene Autry in "Silver Canyon."

Enjoy Cool, Comfortable Breezes in Your Home, Night and Day

Summer heat, collected in your attic, continues to blanket your home long past midnight. Exhaust this hot, stale air -- bring in cool, invigorating breezes with low-cost Coolair Breeze Conditioning. You sleep better, eat better, live better in a house that's kept comfortably cool -- with a breeze. Ask about the Coolair Unit for your home. Terms available.

Can be installed in any home with a minimum of fuss and mess. Gives a lifetime of cool summer comfort.

• Low first cost • Low operating cost • Attractive Automatic Ceiling Shutter • Quiet, efficient operation • Out of sight in attic • Genuine SKF, factory-lubricated ball bearings.

## Odd Situation Facing Business

### Defense Program Creates Paradox

NEW YORK, July 5—(AP)—Business at mid-year is leading a double life.

Industries tied in with the defense effort, directly or indirectly, are booming, straining facilities, fretting at material shortages and red tape that holds them back.

Industries and merchants who deal with the citizen instead of Uncle Sam are likely to be worried now over the fruits of their bad judgment at the start of the year -- over-buying may have stacked up costly inventories, and over-pricing may have frightened away customers.

As a result we have at one end, total industrial production at a peak, national income rising, employment rising, corporate earnings at an all-time high.

At the other, production cut backs, layoffs, retail price wars, weakening prices for many raw materials, tightening money conditions, and the steady inroads of mounting taxes and increasing government controls.

Here is what the first six months of 1951 have dealt out to business in general in production, shortages, controls, taxes, earnings and dividends:

**Production:** The total output of mills, factories and mines rose during the first six months, but at a slower pace than in the months immediately after Korea. Some industries faltered badly, but those tied to defense rose to new records.

**STEEL:**—In each of the last 17 weeks output has topped two million tons. The six months total will be around 52.4 million tons against 47.2 million in the first half of 1950.

**OIL:**—Producing at a record rate of 6.1 million barrels a day as demand proved unexpectedly high, oilmen expect to drill 44,000 new

wells this year, if steel is forthcoming.

**NON-FERROUS METALS** -- Copper, zinc, lead, aluminum production is at full tilt and supplies tight. Controls on use of metals are drawn steadily tighter, and production of civilian metal products dwindles.

**ELECTRIC POWER**--Hit a record high in February and declined seasonally until late May.

**RAILROAD EQUIPMENT** -- More freight cars being built than at any time since the spring of 1949, and a record number of locomotives are on order. Carloadings are now the highest since last November, as the new crop season starts.

**CONSTRUCTION**--Totals are running 10 percent above last year.

Civilian goods: Autos -- three million cars were made in the first six months, just under last year's mark.

**TELEVISION**--Top-heavy inventories and uncertainty over color TV sent the industry into a tailspin in March. Production dropped by half in April, skidded still lower in May.

**HOME APPLIANCES**--Also had inventory pile-ups, and now is beset by metals shortages.

Taxes: Taxes have gone up to pay for defense and still higher ones are being asked. The treasury's tax take in March was twice as big as last year, and it ends its fiscal year tomorrow well in the black.

Earnings: Higher taxes took a big bite out of corporate earnings, but first half profits may hold around one-fourth higher than last year.

Controls: Business-as-usual began to shift over to business-under-controls. The future of the government's control program was the chief question mark at the mid-year.

Spending for defense, now at a \$25 billion a year clip, is climbing toward a \$52 billion rate by the end of the year, assuring prosperity for many industries.

Shortages of metals and chemicals plague many industries. Stockpiling still bolsters high

## Home Demonstration Trainee Arrives Here To Go To Work

MARGARET SHOOK (foreground) gets some pointers on her new duties as home demonstration agent in training from Mrs. Norma Campbell, Fayette County home demonstration agent, in Mrs. Campbell's office in the Farm Bureau building. Miss Shook arrived Monday to take over her new duties. She will remain here until August.

A graduate of Ohio University, she has been a vocational agriculture teacher in home economics in Wyandot County. Her home is Chester Hill. While in Fayette County she will work with 4-H Clubs, at the Junior Fair and at the Fayette County Soil Conservation Field Day. Miss Shook also plans to go to Camp Clifton with women of Fayette County. (Record-Herald Photo)

prices of many raw materials. Outlook: The chief uncertainties: What Congress will do about taxes and controls.

And whether Russia's Malik looks more like a dove of peace or another wooden horse of Troy.

back. Within 100 yards of his foxhole, a fierce hand-to-hand struggle swayed. Flett slept serenely through it all. Next morning he awoke, gazed with astonishment upon a counted heap of 112 enemy bodies.

"It's embarrassing," he gulped, "to have to ask your buddies what happened."

## It's Embarrassing To Sleep So Well

WITH THE FIRST MARINE DIVISION IN KOREA—(AP)—When the enemy attacked one night, Pfc. James W. Flett was asleep in his foxhole. A yelling mob of Chinese burst out of the 3 A. M. darkness. Artillery roared, machine guns rattled, grenades flashed, automatic rifles chattered. For three hours the Reds blasted away, and the Marines blasted

# Armco Foremen Complete College Course

## 12 Receive Certificates At Wilmington

Completion of the first course offered by Wilmington College in its adult education program in industrial supervision was celebrated by officials of Armco Steel and Wilmington College at Wilmington Monday night.

The course, "Human Relations," was taught to the 12 supervisors of the Armco Drainage and Metal Products Co. plant at Washington C. H. during the past few months by Wilmington faculty.

An experimental venture by the nearby college and Armco, it is the first program of its kind in the area and may be the forerunner of an extensive training program in the field industrial supervision by the college on both the undergraduate and adult levels.

Speaking at the "graduation" dinner were Dr. Samuel D. Marble, president of Wilmington College; C. H. Murray, vice president in charge of personnel and public relations, Armco Steel; S. R. Ives, president of Armco Drainage and Metal Products Co., both of Middletown; Thurman "Dusty" Miller, popular after dinner speaker and Wilmington trustee; and Prof. Menzo Stark, chairman of Wilmington's department of industrial arts and engineering who taught the course at Washington C. H.

The Armco officials expressed appreciation to Wilmington College for selecting their company for this first program and pointed out the great potentialities of such a training program not only for Armco and Wilmington College but for industry in general at a time when well trained foremen are a great need.

President Marble explained the value of education and industry joining hands to meet problems such as this, and Prof. Stark reviewed the salient points in the course itself.

Guests at the meeting were representatives of Wilmington industries and other officials of the college and the Armco company.

Supervisors of the Washington plant who were awarded certificates for having completed the course were: Wendell Barr, Jay Duval, Leo Edwards, Charles W. Hall, Jack Hoskins, Kenneth Johnson, Robert Lisk, Bennett Marlin, James Tremlett, James Warman, Elza Woodruff, and Al R. Senter, division manager in charge of the Washington plant.

## Kaiser-Frazer Co. Awarded Damages

NEW YORK, July 5—(P)—The Kaiser - Frazer Corporation has been awarded \$2,588,919 in damages from Otis & Company, Cleveland investment firm, for breach of contract.

Federal Judge John W. Clancy ruled yesterday that the banking concern instigated a 1948 stockholder's suit against Kaiser-Frazer as an excuse to pull out of a \$10,000,000 stock deal.

In Cleveland, Otis said it would appeal the decision and that it had nothing to do with the stockholder's suit.

Otis was one of the banking firms that agreed to underwrite (or sell) a 1948 Kaiser-Frazer stock issue of \$10,000,000 to help finance the sprawling Willow Run, Mich., auto plant.

In its suit, K-F said that the Otis withdrawal caused a condition where the stock "could not be readily re-sold for a reasonable price."

## Communist Teacher Flees East Germany

BERLIN, July 5—(P)—The Russian zone's foremost disciple of Communism in the schools has fallen out with the Kremlin's way of thinking and fled to West Berlin.

Prof. Eduard Schultz, instructor of journalism at the University of Leipzig, arrived here with his wife and small child last night after a hasty, clandestine trip past border guards.

Whales sometimes live to be 500 years old.

OFFICIALS OF ARMCO STEEL COMPANY AND WILMINGTON COLLEGE inspect the certificates of attendance presented 12 Armco supervisors in the company's Washington C. H. fabricating plant who were the first to complete the course in human relations in the adult education program in industrial supervision. Seated left to right are: C. H. Murray, vice president in charge of personal and public relations, Armco; Prof. Menzo H. Stark, chairman of the department of industrial arts and engineering, Wilmington College, and S. R. Ives, president of the Armco Drainage and Metal Products Company. Standing are: Dr. Samuel D. Marble, (left) president of Wilmington College, and Al R. Senter, division manager of Armco Drainage and Metal Products in charge of the Washington C. H. plant.

## Underprivileged Youngsters Here Enjoy Swimming Pool Thanks to Some Rotarians

Fourth of July this year had more than the usual significance for about a dozen boys and girls in Washington C. H. . . . they learned from experience what it means to live in a land of the free without oppression . . . in a land of opportunity and friendliness.

For more than a year now, they had heard about the Washington Park swimming pool; They had watched with a measure of understandable envy as other boys and girls splashed in the water and screamed in glee.

But not until the Fourth of July did they know themselves what it was like.

They were boys and girls from homes where there was no money for memberships; not even the money for the swim suits they would have to have.

Miss Gretchen Darlington, head nurse of the health department, had made up the list over the weeks as she visited homes throughout the city in the regular course of her duties.

### Rotarians Get Action

She told a member of the Rotary Club about these youngsters, some boys and some girls. That got action. Not official action, but rather action by individual members of the club at its Tuesday noon luncheon meeting at the Country Club.

The matter was not brought before the club formally. A couple of the members merely passed the word along among other members. Twelve of them kicked in \$5 apiece to make up a tidy little sum of \$60 which was turned over to Miss Darlington that afternoon.

The money, it was made plain, was to go for swim suits for the youngsters.

Miss Darlington enlisted the aid

of the city police in carrying out her project with the speed necessary to make the dreams of the youngsters come true on the holiday.

The police rounded up the boys and girls, with the consent of their parents and brought them to Miss Darlington. She took them to the stores where they were outfitted with a swim suit.

She did not get expensive suits, but when all 14 had been supplied there was not much money left. The Rotarians told her to keep it and keep buying swim suits until it was all gone. She said she would, but added "it won't last long."

### Money for Admission

The Rotary Club, which started the swimming pool movement more than six years ago, has followed through with a plan of helping the underprivileged children have some of the fun it provides.

Once a month, a box is passed at a regular club meeting. The members drop their contributions

into it. The money thus collected is turned over to the pool manager to pay the guest ticket fee for children who don't have the money. To get in on that, however, the youngsters have to be certified, so to speak, first. That eliminates the indiscriminate use of the Rotary Club's aid fund.

It was explained that while the theory of boys and girls earning money for their swims is endorsed heartily, there are cases where any money earned, even by the children, is needed for the bare necessities at home. Many of those who have been helped to go out and earn small change, but turn it over to their mothers to buy groceries.

Besides, Miss Darlington told the Rotarians, children six to eight years old can't earn very much.

Nearly 90 per cent of the people of India live in villages.

## Parent Interest Urged in Germany

FRANKFURT, Germany—(P)—German parents must take more interest in how little Klaus is doing at school if democratic processes in education are to take hold in Germany. That's what James M. Read, chief of the education and cultural relations division of the U. S. high commission advises. He backed up his contention in an address to German educators by citing personal experience:

"As a parent with a child in a German school I have missed being called into any regular or frequent consultation by the teacher or into a parents' meeting or council."

Read, former professor in the University of Louisville (Kentucky), urged that teachers form study groups with parents on modern theories of child growth and development.

## Religious Power More Than A-bomb

ONTARIO, Calif.—(P)—"American Christianity is a much more powerful weapon than the atom bomb," says a minister from Hiroshima, Japan. The Rev. Kiyoshi Tanimoto, addressing an open meeting here, said the A-bombs dropped on the Japanese cities of Hiroshima and Nagasaki "did not kill the human heart. American Christian spirit was the real source of victory (for the U.S.)."

Rev. Kyoshi, pastor of the Nagaregawa United Church of Christ, is touring this country to raise

## Parent Interest Urged in Germany

funds for a service center for orphans and juvenile delinquents in Hiroshima.

Any resentment the Japanese may have had against Americans for dropping atomic bombs "was checked by the occupation forces and their humanitarian treatment of their former enemies," he said.

The Eiffel Tower in Paris contains 7,000 tons of iron.

About 200 languages are spoken in India.

## New Road Planned To Carry Pilgrims

CAIRO—(P)—Blueprints for a 4,765 mile road to carry Pakistani pilgrims to Mecca and Medina, the holy cities of Islam, are under study, according to the Arab News Agency.

ANA, in a dispatch from Raid, the Saudi Arabian Capital, said the Pakistani mission has just concluded a 14-day survey of areas through which the planned highway would run.

Every good Moslem must, at least once in his life, make the pilgrimage to Mecca, the birthplace of Prophet Mohamed. The projected road would begin at Rawalpindi, Pakistan, and run

through the oil-rich areas of the Persian Gulf and Arabia -- Teheran, Baghdad, Basra, Kuwait, Raid, Mecca and Medina, said ANA.

## Well, It Takes a Dog To Tell It to Marines

HASTINGS, Neb.—(P)—Navy men at the Hastings Naval Ammunition Depot, always anxious to twit the other services, found an aide in a cocker spaniel dog which had been trained to roll over when he hears the word, "dead."

When the sailors came across a group of Marines, they asked the dog: "Would you rather be a Marine, or dead?"

The dog, of course, rolled over as if dead.

## City Directory Survey Started

Polk To Publish Again in 1951

Door-to-door canvassing for the new and up-to-date Washington C. H. city directory is under way here today.

Wendell A. Guldin, of Fort Wayne, Ind., field superintendent of the R. L. Polk Company, publishers of the directory and I. E. Baumgarten of Adrian, Mich., were in the city Tuesday getting the survey started.

Guldin said the survey, first since 1949, will require approximately six weeks.

Each business place, as well as each resident, will be canvassed. It will be necessary to procure complete information from every source despite numerous duplications to assure complete and accurate listings, Guldin said.

Persons building new homes or anticipating a change of address within the year should call it to the attention of the canvassers in order to offset changes effective during the indeterminate time necessary for the compilation of the information obtained during the canvass.

Inconspicuous residences, such as apartments over garages and other easily overlooked apartments should be called to the attention of the canvassers, as well as unusual name spellings.

As in all previous directories, the finished publication is to show names, occupations, where employed and addresses in the alphabetical section.

The street guide section will show home ownership and telephone symbols.

Other than the alphabetical and street guide sections, the directory will feature a miscellaneous government and introductory section in the front of the book; telephone numerical, buyers' guide and classified business sections.

All organizations having regular mail addresses of meeting places should be listed with the names of one of the officers, and organizations or civic clubs not having regular meeting or mail addresses can be listed at one of the officer's homes.

Blank forms are being sent to larger industries for their convenience in listing employees. The employee lists are used in checking the occupational status against home information.

Anyone whose name appears upon these lists will be represented in the directory regardless of home address, that is; anyone working in the city of Washington C. H. who may live on rural routes or other cities may be listed if his name is shown upon the lists of employees.

## Lemons Are Sorted By New Machine

DAVIS, Calif. —(AP)— Science had developed a machine that sorts lemons by color to determine which fruit goes to market earliest. Designed at the College of Agriculture of the University of California, the machine sorts 15,000 lemons an hour and may someday replace slower-working humans who now do the job by hand.

Since lemons ripen unevenly—one tree may have ripe, silver, light green and dark green fruit—they must be sorted so ripeness can be sent to market first.

The machine has a metering device that feeds lemons single file past a band of light-sensitive cells.

The cells measure the amount of light reflected from the skin. Different colors operate various gates which rout the fruit into bins. Agricultural Engineer John B. Powers, who designed the machine, believes it will sort other fruit, too, as the light cells are responsive to the chlorophyll they contain.

## New Plant Chief Is Named by Ohio Bell Telephone Co. Here

Frank W. Ludwick  
(Who Wins Promotion)

Charles E. Easterwood  
(New Plant Chief)

A change in men occupying the position of Washington C. H. plant chief of the Ohio Bell Telephone Company was announced today by Paul Dougherty, the company's commercial manager.

Frank W. Ludwick, who has held the position here for more than five years, goes to Middletown in a similar capacity. He will be succeeded by Charles E. Easterwood of Toledo.

The plan department is one of three which the Ohio Bell has in Washington C. H., the others being the traffic and commercial groups.

As plant chief, Easterwood will be responsible for the maintenance of all of the telephone apparatus and equipment such as buildings, switchboards, telephone instruments, poles, wires and cables in Washington C. H., New Holland and adjacent territory. The traffic department includes the operators. All business contacts between the Ohio Bell and its customers are handled by the commercial department.

Easterwood was born Dec. 31, 1916 in Maumee, where he graduated in 1934 from Maumee High School. His first job was as a grocery clerk.

Works Way Up

Joining the Ohio Bell Oct. 10, 1936, as an installer, he worked up through the positions of private branch exchange installer, installation foreman and testing foreman. It is from the latter position, which he has held in Toledo since February, 1948, that he comes to Washington C. H. to take charge of the Ohio Bell Plant Department here.

Married in Toledo September 2, 1939, Charles and Virginia Easterwood have two daughters—Carol Ann, aged 10, and Marilyn Jean, aged seven. Easterwood's hobbies are hunting and fishing.

Ludwick, whose residence in

Washington C. H. has been at 1014 S. Hinde Street, originally hailed from Jefferson County, where he was graduated from Steubenville High School in 1924.

After working in the baggage and mail departments of the Pennsylvania Railroad, he joined the Ohio Bell in Steubenville in February, 1925, as a cable helper. Subsequent promotions took him through the positions in Steubenville and Coshocton of installer, repairman, senior desk man, wire chief, and field man until he came here in January, 1946, as plant chief.

## Soldier's Big Feet Earn Him Vacation

WITH THE FIRST MARINE DIVISION IN KOREA—(AP)—Pfc. Saadi A. Ferris II has feet big enough to earn him a 20-day vacation from the front lines. The Austin, Texas Marine sports 14 double E's. He brought some of the gunboats with him from the states, but they wore out a few weeks ago and the supply sergeant had nothing comparable in stock.

"Nobody," he insisted, looking unbelievably at Ferris' huge feet. "has shoes that size."

The battalion doctor took a more realistic view of the expansive matter.

"Rear echelon for you, son," said he. "We'll send to Japan for a pair of shoes, but they'll probably get here one at a time. Our cargo planes are only so big, you know."

Twenty restful days later the 14 double E's were in, and Pfc. Ferris once again is leaving incredible footprints in the central Korean mountains.

## Wrecker Is Balked Just by Sentiment

PITTSBURGH —(AP)— Even a professional home-wrecker finds he hasn't the heart to lower the boom on what is left of the old Bank of Pittsburgh.

The facade of the old building, smudged and blackened by the roaring industries which built it, has stood alone since the 130-year old structure behind it was razed seven years ago. And now the facade, whose owner declares it is as near perfect an example of the Corinthian order of architecture as can be found, must be sacrificed for another precious Pittsburgh commodity -- parking space.

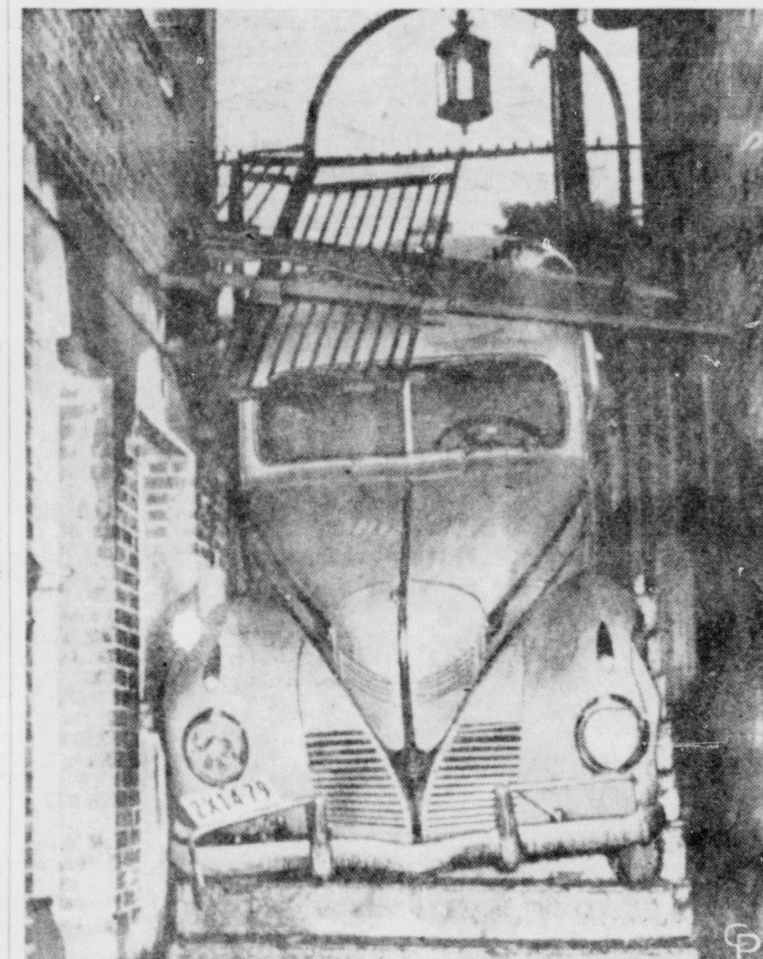

Frank J. Givens, the professional wrecker commissioned to destroy the edifice, is a hard-bitten veteran of the wrecking business. But he has offered a thousand dollars to anyone willing to haul the facade away so he doesn't have to knock it down.

## Fish without Mouth But It Stays Healthy

WASHINGTON — (AP)— A mouthless, four pound bigmouth buffalo fish was caught recently, the Mississippi game and fish commission reports, in Moon Lake. Apparently the fish obtained its food through its gills. Strands of algae were found in the gills. The fish weighed four pounds, four ounces.

Commission experts believe it was born without a mouth. Outside of being a bit thin, it appeared to be in good health. It was thought to be about three years old.

## Big Gain Made In Sales Tax During Year

With half of June still to be heard from, sale of prepaid sales tax receipts in Fayette County for the year ending June 30 reached \$345,868.42, compared with \$304,993.97 for the previous year.

In other words, sales up to June 16, for the past year, totaled

\$41,074.45 in excess of the sales during the same period the previous year.

During the week ending June 16, sales in the county reached \$6,985.62, compared with \$6,432.13 for the same week a year ago.

Indications are that the year's figures will represent around \$42,000 more sales for the year just ended than the previous year, which is regarded as a very substantial gain in business in the county during the year.

In dollars and cents, real value of the goods on which taxes are

The Record-Herald Thursday, July 5, 1951 13  
Washington C. H., Ohio

collected during 1950 totaled \$1,400,000.

## Approval of Names Required by Reds

VIENNA—(AP)—Diapers for infant Communists shouldn't bear the name "OK," and perfume shouldn't be called "Old Laven-der," a Budapest newspaper told its readers recently.

The Communist government pub-

lication "Fuggetlen Magyarorszag" said that Western names like these should be banned from Budapest shop windows.

"The disappearance of these terms should be part of the fight for peace," the newspaper said.

A young crow can eat its weight in food in a day.

A gull can fly backwards as well as forwards.

## Korea 'Air Evac' Is Daily Drama

Wounded Fly Back  
In Peaceful Comfort

By FRANK KING

A KOREAN PORT —(AP)— The wounded fly smoothly and peacefully from this tragic land.

They flew today, as they fly every day the weather permits, slung in litters lining the big planes that lift them above the clouds that help blot Korea from their sight and memory.

"Six months ago it wasn't this good," said the pilot, Capt. Peter A. Bechtel of Hanover, Pa., as we followed the last stretcher up the ramp to an air evacuation plane.

"We landed on dry rice paddies in North Korea and flew ammunition almost to the Yalu River. The wounded would come out of fox-holes with shattered arms and body wounds in bloody bandages. We crowded them into the empty cargo space and headed for Japan."

The "air evac" is an old story, yet a new story every day that torn and broken Americans from the Korean hills are stacked in planes and flown to greater safety and better medical and nursing care. All are young, but few are gay. Some are insensate from battle shock. Occasionally a man dies in the air. The others may not know it, for many sleep deeply on the journey from one strange Oriental land to another.

Like Big Airliners

At first glance the air evac planes look like the big liners that fly between American cities, but the interior is rough, barn-like cargo space.

The litters of the wounded are slung one above the other until men lie four deep with just enough space for comfort. Parachutes are stacked away like cordwood because these men harnessed up in bandages and casts would be helpless in an emergency. The yellow "Mae Wests" are immediately put into use, partly blown-up as pillows.

The first plane out has nurse Capt. Miriam Troxell of Lewistown, Pa., a tiny bit of combined feminine charm and professional nursing efficiency, in charge of the 27 litter cases and several walking wounded. The nurse commands the plane from the tail hatch to the door of the pilot's cockpit. She gives the orders in all routine and emergency situations concerning the patients.

The pilot is a happy-go-lucky veteran who flew with the RAF in World War II, racked up 340 missions on the Berlin air lift, and has flown in Korea since the fighting started. His co-pilot is Capt. Rudy Kruger of Anchorage, Alaska.

The wounded are wrapped in blankets. With engines roaring the plane waits on the strip while a small bomber races off to battle in North Korea. Bombs were being trundled to the bombers in carts hooked together like those that haul the luggage at commercial airports.

Through the mists the flight skirts the peaks that rise from the shoreline. Up the valley are the flags of the United Nations cemetery where nearly 5,000 Americans have been buried. A bulldozer is leveling the rice paddies to make room for more dead. Over another hill to the right are the camps where thousands of war prisoners, both Chinese Reds and North Koreans, await removal to a concentration area.

Everything Pleasant

In twenty minutes the air evac plane is cruising above the clouds. Many of the men have their own cigarettes. A crewman opens a sack of old comic books and magazines, also a big box of sandwiches. There is a special lunch because the plane brought in a load of officers and men returning from five-day leave and they left their lunch boxes behind.

The little nurse is everywhere at once, up and down the tiers of litters, adjusting bandages, attending wants, answering questions.

The ambulatory cases want to help out, and the nurse humors them. A big fellow hobbling on one leg is using both hands to hold a cup, while a badly injured man

tries to suck a drink through a glass tube.

It is a routine flight, one of many made every week. When the going is tough at the front and the casualties heavy, the helicopter rescues more frequent, and the hospital trains more numerous, there are more flights.

Within an hour, most of the men turn their faces to the shadows of the curved wall of the plane and are asleep. A few lie flat, staring at the brown litters

above them. On the bottom row a man racked with battle shock clenches his hands and keeps his eyes squeezed tightly shut.

Over the Straits of Panama of Japan opens up through the clouds. Soon the snow-capped cone of Mount Fuji is a landmark to the left, but the air evac planes give it a wide berth. Other planes have crashed against the steep sides of the ancient volcano and no air evac carriers fly closer than 30 miles to it. Few of the wounded see the scenery, nor do they care.

At the port of destination in Japan, the pilot brings the big

plane down to kiss the runway with the gentlest, softest touch imaginable. The sleeping wounded do not stir. The litters are carried out as carefully as they came in, and distributed to waiting ambulances. Some of the men will fly on to America after a rest others will go back to duty in the Korean hills.

Kilts for Far North

DAWSON CREEK, B. C. —(AP)— A fund of about \$4,000 is being raised in this northern district to provide kilts imported from Scotland for all members of the local pipe band.

## Soldiers Taught To Fly by School

FRANKFURT, Germany —(AP)— The Army and the Air Force conduct "air-transportability schools." This high-sounding name is the cover for a simple project. In order to teach soldiers to overcome air sickness, they are taken for practice flights. It's working, too.

Men who climb aboard planes gingerly soon blossom into soldiers who realize that airplanes move much faster than size 12 shoes.

Much of the sickness encountered in moving troops by air had come from apprehension of the

unknown, it was learned. Once soldiers got accustomed to the idea of flying, the fight was half won.

Man Drives to Jail  
To Forestall Crash

POMONA, Calif. —(AP)— A man walked up to the desk sergeant in the police station and said:

"Please lock me up, officer. I've got an urge to run into a telephone pole."

The sergeant explained he couldn't oblige because there was nothing to charge him with. The man left. Fifteen minutes later came a report that a man had knocked over a lamp post at a nearby intersection with his car.

This time the cops accommo-

## Police Talk Curbs Traffic Problems

BERLIN —(AP)— Berlin cops are trying to fast talk the city into traffic wisdom these days. The system is novel but is slowly getting results.

Chief of Police Johannes Stumm picked out half a dozen glib patrolmen recently and assigned them to strategic traffic spots, equipped with microphones. The men operate the traffic signals in

dated him. He was locked up on a charge of destroying city property.

the usual way until a violator — pedestrian, auto or bicycle — commits a faux pas. They switch on their microphones and boom out the error.

The crowds get a large kick out of it and even the violators wind up amused, and smarter, rather than angry. The hand-picked cops make this possible by using wheedling tones and spreading a general air of courtesy.

Kitchen Killing

TEL AVIV —(AP) In neighboring Jaffa, a man has killed his wife. He said: "Her cooking was too bad."

READ THE CLASSIFIED ADS

THE "FAIRY SHOE," with transparent ring heels, is Berlin's newest design to lure clothes conscious women. They're made of plastic, weigh a quarter-pound each, and, it is claimed, are more durable than standard shoes. Price: 50 to 80 marks, which is \$10 to \$16. (International)

**FRISKIES**

WHY PROFESSIONALS CHOOSE FRISKIES

BECAUSE Friskies provides every single food element dogs are known to need for complete nourishment. No "extras" needed.

BECAUSE Friskies costs less than half as much to feed as most canned foods. One 2 pound package of Friskies contains as much moisture-free food as 6 cans of the average dog food.

BECAUSE Friskies has a good "meaty" taste and smell dogs love,

and is far more nourishing than meat alone.

BECAUSE The Albers Division of Carnation Company, who makes Friskies, has over 50 years' experience in animal nutrition.

FRISKIES CUBES — Same famous complete formula as Friskies Meal... in crunchy, bite-size morsels. Nothing to add—not even water.

KENTUCKY-BORN Henry Randolph Mitchell is No. 4 on the FBI's "Ten Most Wanted" list. In 1948 Mitchell and a confederate, both escapees from the Florida penitentiary, robbed a Florida bank of \$10,353. The confederate was caught, but Mitchell remains at large to expand a criminal career dating from 1924. He is 55, 5-feet-8, weighs 155. (International)

## Reds Lose Two Holiday Games

Chisox and Dodgers Leading on July 4

By JOE REICHLER  
(By the Associated Press)  
If the sagging Cincinnati Reds don't mend their ways -- and quickly -- they're going to find themselves in the spot a lot of the experts picked for them in the National League pennant race. That's seventh place.

A double defeat yesterday at the hands of Pittsburgh's cellar dwelling Pirates left the Redlegs only a half game out of that seventh spot.

The first setback was a 4 to 1 count and rain put a merciful end to the second encounter after five and a half innings and with the Pirates romping along with a 16 to 4 advantage.

The Corsairs had two successive seven-run innings as a varied assortment of Redleg pitchers showed nothing in the way of effectiveness.

AFTER MORE THAN two weeks of sitting on the bench because of sundry ailments, Ewell Blackwell got back into action in the first game. He yielded a 2 to 1 lead to Pittsburgh in five innings and then bowed out when he began to tire. Herman Whemeyer gave up the other two runs.

Willie Ramsdell got through the first two innings of the nightcap and had a 2 to 0 lead when the lid blew off. Seven runs in the third and seven more in the fourth wrapped that game up for Pittsburgh.

Ralph Kiner, whose presence in the game brought a protest from Manager Luke Sewell, got home runs in both of the big innings.

Sewell claimed Kiner should have played yesterday because of a suspension handed down by League President Ford Frick. The information was, however, that word of the suspension wasn't received until after the first game had started and Frick then ruled Kiner could play yesterday.

Howard Fox, who usually has considerable success against the Pirates was due to do the pitching for Cincinnati today and his opponent was expected to be Howie Pollett.

IF BROOKLYN and the Chicago White Sox fail to win the pennant, chalk one up against tradition.

Baseball history discloses the team in first place after games of Fourth of July walks off with the flag about two thirds of the time.

Both leagues show the same figures. Since the turn of the century, the Independence Day leaders in the National and American Leagues won in 33 of the 50 campaigns.

The White Sox joined the Dodgers as July 4 leaders yesterday by splitting a doubleheader in Detroit while Washington's Senators stunned the Yankees with a sweep of their twin bill in New York.

Chicago won the second game, 5-1, after losing a 6-3 opener to wrest first place in the American from the Yankees by a half game. New York dropped 9-6 and 6-5 decisions.

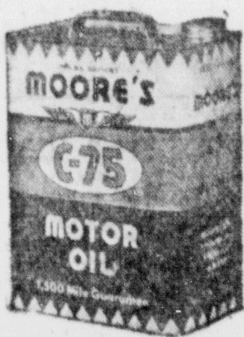

Brooklyn increased its first place margin in the National to six and a half games over New York, thumping the Giants twice, 6-5 in 11 innings and 4-2.

Boston's third place Red Sox climbed to within two and a half games of the American League lead, winning two in Philadelphia, 9-0 and 9-5. Cleveland helped tighten the race even more by sweeping a pair in St. Louis, 6-5 and 4-3 in a 15-inning marathon.

The St. Louis Cardinals whipped the Cubs in Chicago, 10-5. The second game of the scheduled doubleheader was rained out. Philadelphia moved into fourth place past Cincinnati by rapping the Braves in Boston twice, 4-1 and 3-1.

VETERAN JOE DOBSON pitched the White Sox into first place with a nine-hit victory over the Tigers. He needed help, however, from Marv Rotblatt. Al Zarilla's two-run homer featured a four-run first inning blast against Dizzy Trout. Detroit's Hal Newhouser

## French Team Wins From Rocking Chair

From the first pitched ball to the last at Wilson Field Tuesday evening the chatter of the spectators didn't lessen as the French team held off a last minute drive to edge the Rocking Chair Inn team 9 to 8. This put the Frenchmen in first place in the city softball league.

The Rockers took a good four run lead in the first inning as they knocked O'Brien off the mound. But the Frenchmen came back in the second with a run in the second and tied it up with three more in the third.

French got to Jake Evans the losing pitcher, again in the bottom of the fifth inning for three runs and two more in sixth.

The Rockers came back in their half of the seven inning and took in three runs before Anderson, the winning pitcher could stop them.

## Yesterday's Scores

**AMERICAN LEAGUE**  
Washington 9-6, New York 6-5.  
Boston 3-9, Philadelphia 0-5.  
Cleveland 6-4, St. Louis 5-3 (second game 15 innings).  
Detroit 6-1, Chicago 3-5.

**NATIONAL LEAGUE**  
Brooklyn 6-4, New York 5-2 (first game 11 innings).  
Philadelphia 4-3, Boston 1-1.  
Pittsburgh 4-16, Cincinnati 1-4.  
St. Louis 10, Chicago 5 (second game postponed, rain).  
Cleveland 2-12, Columbus 7-9.  
Indianapolis 5-6, Louisville 2-5.

**AMERICAN ASSOCIATION**  
Milwaukee 9-3, Kansas City 0-4 (second game 10 innings).  
St. Paul 8-3, Minneapolis 3-4.  
Toledo 8-12, Columbus 7-9.  
Indianapolis 5-6, Louisville 2-5.

aided by Hoot Evers' three-run homer, outpitched Randy Gumpert in the opener.

Gil Coan hammered two three-run homer off Vic Raschi and Joe Ostrowski to lead the Senators to their first game win. Superb relief pitching by Mickey Harris enabled the Nats to make the sweep.

Maurice McDermott hurled a four-hitter as the Red Sox collected 14 off three Philadelphia hurlers to shut out the A's in the opener. The Sox made it nine in a row over Philadelphia, kayaking Carl Scheib with a six-run sixth inning in the nightcap.

Ralph Kiner blasted homers No. 18 and 19--one with the bases loaded and the other with two on--to spark the Pirates to their double win.

Six-hit pitching by aces Robin Roberts and Bubba Church gave the Phils their double win over the Braves. Home runs by Hal Rice, Wally Westlake and Billy Johnson accounted for half of the Cardinals' runs in their 10-5 victory over the Cubs.

## Welders Nosed Out In Game at Sabina

The Welders of the WCH Recreation League were nosed out, 2 to 1, by the VFW boys at Sabina in an inter-city game.

The Welders got their lone run in the first inning and were blanked with 3 hits from there out.

After two scoreless frames, the VFW put across a tally in the second and third innings to take the lead that they made stand up for a win.

It was a pitchers' battle all the way between McMullin of the Welders and Callahan of the VFW.

## Hilliards Entries

Due to the large number of entries it has been necessary to divide some races and carry over others. Richard L. James, racing secretary at Hilliards, said, as he explained that "to relieve this situation, we will again race nine events on Friday and Saturday nights." This will make four nights this week with nine-Low cards.

Following are the entries of five races that are scheduled for Friday night, starting at 8:15 P. M.

## Three Lima Boys Signed by Phillies

LIMA, July 5 —(AP)—The Philadelphia Phillies today announced the signing of three Lima area youths to baseball contracts as a result of their showing during a three-day tryout camp held here last week.

The youths are Jim Young, 18, lefthanded pitcher, a former Lima Central High School baseball and basketball star; Roger Hegemeier, 19, of St. Marys, a righthanded pitcher graduated from high school last year and now playing in the Western Buckeye Semi-Pro League; and Bob Rupert, 20, of Spencerville, a third baseman and junior at Ohio Northern University.

Terms of the contracts were not announced. The three players will report to the Phillies spring training camp next year.

## Moose Hit Stride; Win at Wilmington

Maybe the Moose baseball team has hit its stride at last.

After taking it on the chin time after time early in the season, the Moose won their second consecutive game on the Fourth of July holiday at Wilmington by the lopsided score of 11 to 2. Only last Sunday, they had won from Hillsboro, 5 to 2, in another SWO League game.

Next Sunday, the Moose are booked for a return game with Wilmington on their Good Hope lot.

The Fourth of July game was the payoff of one rained out more than a month ago.

For three innings, it looked like it was going to be a ding-dong ball game. Then the Moose opened up and scored 8 runs in the next three frames.

Kenny Dawes had the Wilmingtonians under control from the start. He fanned 14, gave only two bases on balls and allowed but six scattered hits.

Four pitchers paraded in and out of the box for Wilmington, but could not stop the Moose rampage, once it got started. The combined efforts produced only three strikeouts and yielded 10 bases on balls.

Baird got the game's only home

## National Tennis Title Won by Pancho Segura

FOREST HILLS, N. Y., July 5 —(AP)—Pancho Segura, the two-fisted swinger from Ecuador, pocketed a check for \$2,300 today for winning the national and professional tennis championship.

Little Pancho won the title for the second straight year yesterday on the wet turn of the West Side Tennis Club when he shipped Pancho Gonzales, the former amateur king, in the final, 6-3, 6-4, 6-2.

### Agents-Salesman W't'd 20

WE NEED two sales people in this  
territory who can sell direct. This is  
not just another job. We want people  
who want to have more and live better  
than average. We furnish you a full  
line of samples at no cost to you and  
help you get started. You must be 25  
or over and have car. Write Minnesota  
Woolen Co., Box 91, Hocking Station,  
Lancaster, Ohio. 130

### SALES LADY—Are you ambitious? Do

you need to make money? Good  
health, nice personality, free of home  
responsibility. Willing to work evenings.  
Must have car for local driving. No  
traveling, no canvassing. Applicant  
who needs to make at least \$65 per  
week preferred. If you can meet these  
requirements and are interested in a  
worthwhile career, write giving phone  
number and experience to Box 742, in  
care of this paper. 129

### Don't Let It Happen Again!

Salesman in war curtailed in-  
dustry. We have permanent places  
for two salesmen under age 41 in  
Central Ohio. Men interested in  
examining the merits of owning a  
business. We supply dignified of-  
fice accommodations in your lo-  
cality. Salary and commission over  
a two year training period. Let's  
talk it over at our expense. Call  
Circleville 970, or write: C. H.  
Weidinger, P. O. Box 401, Circle-  
ville, Ohio.

## DAILY CRYPTOQUOTE—Here's how to work it:

One letter simply stands for another. In this example A is used for the three L's, X for the two O's, etc. Single letters, apostrophies, the length and formation of the words are all hints. Each day the code letters are different.

### A Cryptogram Quotation

L C F F C K W H N E W A A C K X I D C K L H  
P D C K U X S C W H F D N A N H F N U U C E  
X G N A E D N F K C E F D C K C P W F D - V K X S -  
C K L H.

Yesterday's Cryptogram: IT IS FITTING THAT A LIAR SHOULD BE A MAN OF GOOD MEMORY—QUINTILIAN.

### Subdivision Is Accepted Here

Streets Vacated In Old Addition

At a special meeting of City Council at noon Thursday, an ordinance was passed accepting the second Baker Belle Aire Addition. Another ordinance was passed vacating streets and alleys in the old Pursell Addition to the city.

The meeting had been called especially to take up the two matters. The next regular session will be held Wednesday night.

The ordinance accepting the G. D. Baker Belle Aire Subdivision No. 2, a tract of nearly 10 acres south of the present Belle Aire Addition, was the legal step necessary to officially recognize the addition and make it a part of the city.

Attorney R. L. Brubaker represented residents of the Washington Oaks Addition, which was accepted August 18, 1903, as the Pursell Addition, but which was never platted and divided.

Application had been made by Mildred Irene Mohr to have the alleys and streets named in the "Pursell Addition" vacated.

Both measures were passed by council without opposition.

### Autos in Collision

Here on Wednesday

Two automobiles collided on West Court Street at the intersection of Highland Avenue and Leesburg Avenue Wednesday at 2:40 P. M., but no one was injured.

Both cars were damaged considerably in the mix-up.

The accident occurred when Shelby R. Cogan, 27, Greenfield, headed west on Court Street, attempted to make a left turn into Highland Avenue, and a car driven by Edna Lamb, Hamilton, was coming out of Leesburg Avenue.

Mrs. Lamb said she had stopped for the intersection and started on, but did not see the Cogan car until it was too late to prevent the accident. City police investigated.

### Holiday at Pool

(Continued from Page One)

pool, Dickie Highfield, flashlight; girls eight and nine years of age, swimming across pool--Ann McDonald beach towel.

Boys eight and nine years of age swimming across pool--Jerry Hoppes, flashlight; girls eight and nine years of age, swimming length of pool--Roselyn Marting and Karen Craig tied for first, bill-folds; boys eight and nine years of age, swimming length of pool, Byron Palmer, money belt.

### Many Prizes Presented

Girls 10 and 11 years of age, swimming length of pool, Kristin Himmelsbach, sun glasses; boys 10 and 11 years of age, swimming length of pool, Gary Foster, bill-fold; boys 12 and 13 years of age, racing--Ronnie Campbell, moccasins kit; boys 14 and 15 years of age, racing length of pool, Ralph Sommers, knife.

Boys of all ages, back stroke for length of pool, Ronnie Campbell, key chain; girls of all ages, swimming length of pool by backstroke, Gretchen Himmelsbach, sewing kit; girls 14 and 15 years of age swimming--Janet Howard, pearl necklace; relays, swimming--Ralph Sommers, Ronnie West, Jim Wyatt and Eldon Brown, bill-folds.

Backstroke, girls, length of pool, Gretchen Himmelsbach, beach towel; diving, high board, Jimmy Johnson, swimming trunks; and low board, Bob Alkire, carry-all bag.

Sarah Core and Michael Boylan put on the swimming act, "Bicycle Built for Two."

Those taking part in the water ballet were as follows: Kristin and Gretchen Himmelsbach, Julia Persinger, Sarah Core, Betty Whitten, Jerry Boylan, Jean Persinger, Vera Johnson, Sandy Rose and Sherry Bright.

### County Courts

#### CASES DISMISSED

Two divorce cases have been dismissed by Judge H. M. Rankin upon application of the plaintiffs.

They are: Gladys Coe against Max Coe and Ruth E. Huff against Charles R. Huff.

#### RECEIVER ASKED

A receiver has been asked by Glenn Gilmore to take over and liquidate a grocery business operated by Gilmore and Mable Gilmore, the defendant, on Delaware Street.

Dissolution of partnership and distribution of funds, as well as payment of debts owed by the Gilmore Grocery, are asked by the plaintiff, who is represented by Charles S. Hire.

Gilmore in his petition states that he and the defendant entered into a partnership business January 15, 1951, and the plaintiff was to furnish the stock and the defendant was to devote all of her time to the business. Profits were to be shared by the two parties, the petition states.

Plaintiff charges that on June 30 the defendant refused to make an accounting and ordered him out of the store.

### Fugitives Caught

(Continued from Page One)

other cars in the same neighborhood.

#### Abandoned Car Found

The Buick was abandoned near the Woodland Farms, north of Sedalia, and the boys headed into the woods.

Later one of the trio appeared at a farm house and asked for something to eat. The farmer's wife gave the boy food, became suspicious, and called Sheriff Ridwell at London.

Bidwell called Sheriff Hays, and the boy hunt was on in real earnest.

Sheriff Hays and Deputy Underwood, Sheriff Roy Underwood, Sheriff Bidwell and two or three deputies, Police Chief Gorman Clark of London, Chief William Daniels of Mt. Sterling and several state highway patrolmen were soon on the scene.

The woods were searched thoroughly, and trail of the three boys was picked up and led to a hayfield, where they were found asleep. Deputy Underwood was among the trio of officers who found the boys. The trio surrendered without resistance.

#### Boys Jailed Here

The captured boys were brought to the county jail here, and the warden of the Pennsylvania Institution notified. Officers were to come here Thursday or Friday and take them back to prison.

The three readily confessed stealing the Buick, and said that two other boys who were in the group of escaped inmates of the reformatory had stolen the Browning car.

They gave the names of the other two, now being sought over a wide area as Arnold Perkins, 15, and Thomas Stickles, 14.

The boys told the officers they had stolen a station wagon in Pittsburgh, Pa., and abandoned it near the Hazel Meyer farm in Fayette County, when motor trouble developed.

The two boys left the other three and started looking for a car to steal, and the three then abandoned the station truck and after two or three attempts at stealing cars, drove off with the May Buick.

The five boys, with a sixth, escaped from the Pennsylvania institution Sunday night, and the sixth boy separated from the others soon after their escape.

### Radio Station

Airs Soil Field Day Plans Here

Fayette County farm work will be getting a lot of plugs over radio station WRFD in Worthington this month.

Albert Cobb, associate county extension agent, appeared on a 15-minute program, "Over The Line Fence," Thursday.

Cobb discussed the coming conservation field day on the Alpha farm, August 1, with WRFD's program director, Bob Miller. Many points of interest during the field day and the plowing contest were brought out by Cobb.

Next Wednesday at 12:15 P. M., Mrs. Norma Campbell, home demonstration agent for the county, will discuss the exhibits which will be of interest to the women during the field day. She will discuss the field day with Patti Maddux, home service counselor for the southern division of the Dayton Power and Light Co., over the same station.

On Tuesday, July 17, at the same time, a group of livestock men in the county will point out some interesting facts about conservation work and its value to livestock owners with Bob Miller.

Robert Haigler, a well known Hereford breeder in the county; Harold Mark, chairman of the hog division for the conservation field day, and Walter Thompson, president of the Shepherd's Club in the county, will talk about the values of field conservation with Miller.

The three programs were recorded in the Farm Bureau building last Monday by Miller.

### Robert P. Garland

Summoned by Death

Robert Patrick, six months old son of Mr. and Mrs. Robert F. Garland of New Burlington, passed away Wednesday afternoon.

Besides his parents, one small sister, Nancy Jane, survives.

Mr. and Mrs. Ralph Nisley are the maternal grandparents.

Friends may call at the Fisher Funeral Home, in Wilmington, after 2 P. M. Thursday.

Committal services will be held Friday morning at Wilmington.

MEYER DEMBIN, 38, 5-feet-8½, earns a place on the FBI "Ten Most Wanted" fugitive list as a bank robber. He is known to be an opium smoker. He dresses well, fancies himself a ladies man, likes to carry large sums of money. He weighs 150, has a scar on his right cheek. (International)

### The Old Home Town

By Stanley

### Truce Talks Set

(Continued from Page One)

troops two miles east of the ancient Korean capital.

Other patrols combed the Kaesong area Thursday. Behind them bulldozers smoothed out the rutted and war churned road over which UN cease-fire emissaries may travel from Seoul to cease-fire talks in Kaesong.

#### Weather Is a Factor

The weather will determine whether Ridgway's representatives at Sunday's meeting travel by jeep or helicopter. If the weather is good they will fly.

Identity of those to make the trip has not been disclosed.

The emissaries will be three officers, none of higher rank than a colonel. Their job will be to work out arrangements for the actual armistice talks, to be held in Kaesong Tuesday.

They will be accompanied by two interpreters and their pilots or jeep drivers. If they travel by road they will go in three jeeps, each flying a white flag.

Associated Press Correspondent Nate Polowetzky said there was an air of repressed excitement around U. S. Eighth Army headquarters as preparations were pushed for cease-fire talks.

A spokesman said only routine patrols roamed the front Thursday. The air force made its usual wide sweeps after 625 sorties Wednesday. Bridges were prime targets. Sixteen were knocked out Wednesday.

#### Peace Train Stalled

A war-shattered railroad bridge will keep the UN's 19-car peace train from going to Kaesong for the armistice meeting. The train is ready with its crew standing by, in Seoul's battered rail yards. It will go only as far as Munsan, south of the Imjin River on the road to Kaesong. There it will serve as a barracks on wheels for negotiators.

There was some speculation in Tokyo that New York Gov. Thomas E. Dewey might be included in the final armistice negotiations. He spent several hours talking with General Ridgway

Thursday. They met shortly after the UN commander agreed to a preliminary meeting Sunday instead of today as he had proposed.

Ridgway's message was radioed at 10:30 A. M. (730 P. M. Wednesday, EST) to North Korean Gen. Kim Il Sung and Chinese Gen. Peng Teh-Huai.

### American Newsmen

(Continued from Page One)

who attended the trial said that after the five-man Red court handed down the sentence, they heard Oatis say faintly:

"I accept the sentence of the court and ask that I be sent somewhere I can do some useful work."

The three Czech co-defendants, who had been employed mainly as translators, drew heavier sentences. They were:

Tomas Svoboda, 20 years; Pavel Wodinek, 18 years, and Peter Muntz, 16 years. All were stripped of their property and their civil rights for 10 years.

In New York Associated Press branded the trial as "a sham and a mockery of elemental justice." The AP said legitimate news gathering has been "twisted and distorted" into espionage, and "the Associated Press will continue, by all means available, to seek Oatis' release from this cruel and unjust detention."

The U. S. State Department labelled the trial a "ludicrous travesty of justice" and declared: "The confession of espionage was in truth but the admission of

### Behavior Good Over Holiday

#### One Driver Nabbed For Speeding

General behavior, even among the motor vehicles drivers, was good here over the holiday, as disclosed by police records for the day.

One driver was arrested, for driving 60 miles an hour on Clinton Avenue. She was Cora Wheeler, 20, Salem, N. J., who left behind \$20 as a reminder that traffic laws are made to observe.

Robert H. Davis, 47, Grove City, was taken into custody Tuesday night, on a charge of driving a truck making excessive noise. He posted \$25 for appearance in police court.

William J. Thomas, Circleville, with too much liquor tucked under his belt, was arrested on Washington Avenue late Tuesday afternoon, on a driving while drunk charge, and his bond was set at \$150.

One intoxicated man was arrested Tuesday night upon complaint of his wife.

Traffic was not unusually heavy over July 4th and for the most part drivers were careful.

an American reporter that in the high traditions of his profession he was attempting under the most unfavorable conditions to report a true picture of conditions and events in Czechoslovakia as he saw them."

#### BUILDING ORGAN

MIDDLETOWN--Dale E. Wiley is building an electric pipe organ in his home, using old parts where necessary and making new ones as needed.

Paper was invented about 100 A. D. and soon came into common use as a cheap substitute for silk in scrolls.

### DO YOU KNOW

KLEENKLOTH household towels are soft, absorbent and lint free. No laundering, dirt rinses out in seconds. RINSE OFTEN--USE OVER AND OVER.

Use for anything you might use a cloth towel for. Six in package for 89c.

### DOWNTOWN DRUG

### LITERARY COWS

A farmer at Abbotskerswell, England, names all the cows in his herd after Shakespearean heroines.

We're not that literary. We named our fine-textured loaf simply PENNINGTON BREAD.
